

LANGDON TO GET UNION SUPPORT

Many Taylor Votes Will Go to McGowan In the Coming Municipal Election Fight.

COSTS OF PROSECUTIONS INFLUENCE BUSINESS MEN

Many Campaign Roorbacks to Be Expected During Week In Effort to Stampede Votes to One of Candidates.

(Special to Republican.) SAN FRANCISCO, Oct. 28.—The men who are working hardest for the re-election of District Attorney William H. Langdon will tell you that if it were not for the strong support that he will get from among the unions he would be defeated. They say that no less than 4000 electors who will vote for Taylor for mayor will cast their ballots for McGowan, the union labor nominee for the district attorneyship. In neither the Langdon nor the Taylor camp are any majorities as to the final result, but big surprises are numerous as to the manifestations of the citizenship of the city.

The anomalous situation of Langdon and Taylor, it is really exists; must be ascribed to the old proposition of the "reward" of the business man. He shouts for good government, cries out for the election of Taylor and vehemently condemns McCarthy, but at the same time he wants a cessation of the graft prosecutions. The fact is that they might add a trifle to his taxes would be sufficient reason for him to oppose them, it seems. Of course, other considerations enter into the influencing of the merchant, but in the main he is simply placing the dollar above citizenship.

Campaign For Workingmen. So it is among the workingmen that Langdon has been putting his "hicks" at campaigning. So far as his personality figures he meets with great success; and as for the healthy citizenship that endorses his cause he finds it strongest among the men who toil. As evidence of where the district attorney is aiming to strike his hardest blows, he and Henry and Johnson, the legal lights of the Woodling prosecutions, went into the Mission district tonight in big effort to arouse enthusiasm for their cause. They were, of course, eminently successful.

Langdon's course has by no means been an easy one. With nominations on both the Taylor and Ryan tickets he has constantly been in danger of a jam between them. His only issue has been that of the graft prosecutions, but to steer clear of the issues between the two majority nominees is fraught with dangers. The Taylor men have not refrained from taking shots at Ryan from behind Langdon's popularity and strength and the Ryan forces have likewise been using the district attorney's name for their own ends. It has been most unfortunate for Langdon's forces to keep the warring press from putting him in a squeeze in this manner.

Ryan Loyal to Langdon. While the general theory of the situation would seem to make distinctive allies of Taylor and Langdon, Ryan is one of the most sincere supporters that the district attorney has. From the very beginning the candidate of the Republicans has stood for Langdon and the graft prosecutions. Taylor is committed likewise for the Democratic camp, where the major's candidacy was initiated, there clearly is treachery to Langdon's cause, the result, no doubt, of the personal hostility that Gavin McNab bears. On the whole there is a better loyalty to Langdon among the Republicans than among the Democrats.

To avoid these complications, which might take on a serious aspect, Langdon has about cut loose from the majority candidates to make his canvass strictly individual. It seems to be his only reasonable course. There is no occasion for alarm over his candidacy, it is confidently asserted, but those who desire to see him reinstalled in office think it is well that he is striving as diligently as he is. The fact that has been opened to defend him can be seen accomplishing its purpose in some quarters and it will be an exciting fight from now until election day.

May Stampede Voters. This last week in the campaign will be marked by attempts to stampede the voters. The followers of each candidate for mayor have a movement in view. The Taylor men will aim to break into Ryan's strength with a plea of making the defeat of McCarthy sure. The Ryan supporters will try to create a way for their candidate on the representation that he is the only one who can beat McCarthy and that Langdon can be elected only if the Republican ticket wins. McCarthy is going to face the issue directly from the front with speeches, music, vaudeville performers and great crowds. The will be met with campaigning and as many of the candidates have already exhausted their voices and can speak only in hoarse whispers it is about the time for money to come in and do some talking.

FALLS FROM TREE AND BREAKS NECK. MARYSVILLE, Cal., Oct. 28.—Sherman Day, aged 12 years, while picking walnuts, fell from a tree and broke his neck, dying within five minutes.

BIRMINGHAM GOES FOR PROHIBITION

BIRMINGHAM, Ala., Oct. 28.—The hottest campaign in its history, has gone dry. While it is impossible to tell at ten o'clock to give them a majority, indications are that it will be 1500 for Prohibition.

RUNAWAY OF MULES ENDANGERS TAFT

BAGUIO, Oct. 28.—Secretary Taft and wife escaped injury last night from a runaway of mules, while in an automobile with General Wood and Bliss. The chauffeur was going at great speed, and after the narrow escape of the distinguished travelers. This afternoon Secretary Taft attended a feast given in his honor at which Igorrote dances were presented. He also visited various points of interest and inspected the summer government buildings. He is said to have determined on the immediate development of Baguio on a large scale.

YOKOHAMA WELCOMES AMBASSADOR O'BRIEN

YOKOHAMA, Oct. 28.—The new American Ambassador, Thomas J. O'Brien and wife were introduced to the foreign residents of this city last night at a brilliant reception given at the residence of Consul General Miller. There was a large attendance of Japanese and foreigners, including embassy attaches. The mayor of Yokohama and leading local residents combined in expressions of welcome from the united Japanese and foreign interests to the diplomatic representative of America.

PROSECUTORS GO ON THE STUMP

Heney, Langdon and Johnson Address Great Crowds in the Mission of San Francisco.

ELECTION OF MCGOWAN PREMIUM ON CRIME

Heney Declares He Will Prosecute Calhoun Up to January 1st With All His Ability, No Matter How the Vote Goes.

SAN FRANCISCO, Cal., Oct. 28.—Francis J. Heney tonight made his first speech of the present city and county campaign, addressing a crowd of 2000 men and women at Nineteenth and Mission streets in behalf of the candidacy of District Attorney Wm. H. Langdon for re-election. Other speakers were heard, including Messrs. Langdon and Johnson. With them on the platform were Rudolph Spreckels, financial guarantor of the prosecutions, William J. Burns, who gathered the evidence against public service corruption officials, Charles W. Cobb, Heney's law partner, Heney's brother, Benjamin Heney, mining engineer and contractor, whose home is in Arizona. The speeches were powerful pleas for a chance to carry to completion the avowed task of cleansing San Francisco from "the curse of graft, and punishing as the law provides the rightdoers who have by the wholesale corrupted her public services and who stand ready to corrupt and debauch and boodle affairs if allowed their liberty and given the opportunity."

Mr. Johnson told his hearers that "Equality before the law, whether the rich plunderer of corporation privileges shall stand no higher in the courts of justice than the poor who are thieves of a loaf of bread" is the principle which they are to affirm or repudiate by their ballots November 5th. He forewarned in the election of Langdon the seal of San Francisco's moral rebirth; in his defeat, an "open and shameful return to the infamous regime of another Schmitz and another Ruef and all the social and political degeneration their names stand for."

According to one of the elements approached by the bribery-graft prosecution, he branded a portion of the San Francisco business public as "a minority whose only desire is personal profit and whose only desire is the dollar." Concluding, he asked for Langdon, a majority of twenty thousand votes.

Langdon said, "My election or defeat, is merely a question of stopping the appropriation. Do you or do you not want crimes that have been committed against the government to be punished?"

FRISCO BANKS ADOPT FIAT MONEY

Clearing House Certificates to Be Issued to Tide Over Present Currency Shortage.

HOARDING OF MONEY MUST BE PREVENTED

Drainage of Currency to Private Hands in the East Has Already Had Its Effect on This Coast. Necessitating Care.

(Special to Republican.) SAN FRANCISCO, Oct. 28.—The following statement was issued tonight by the San Francisco Clearing House Association through its President, Homer S. King:

San Francisco has taken the same action, through its clearing house, as that taken by the banks in the eastern cities. At a meeting of the association held today it was resolved to issue clearing house certificates and put the financial business of the city on what has come to be called a clearing house basis. To carry this line into effect it was decided further that they should follow the methods in vogue in New York, Chicago and in all the business centers of the country, making no payments in coin except for the reasonable and clearly legitimate needs of business.

Checks received by members of the community in regular course of business should be deposited as usual, each in his own bank, and they will be redeemed through the clearing house, just as they always are, except that the clearing house balances between banks will be settled by clearing house certificates instead of gold. Checks when presented over the counter for collection will be certified "payable through the San Francisco clearing house" and then may be regularly used for all payments. Such checks will be freely accepted on deposit at the counters of the other banks or in payment of amounts due the latter. They will also answer for payment of bills, and in short, pass current as money. Such checks under ordinary circumstances are preferred to money.

The banks will pay money on small checks as desired, and to provide funds for payroll and other legitimate uses. Should money be demanded in unusual amounts it will be refused unless evidence is given that it is required in good faith and for other purposes than hoarding, to prevent which is the main purpose of this step.

This is the first time that the San Francisco clearing house has felt it necessary to pursue such action, although it has been taken several times heretofore by banks in New York, Chicago, and other important cities. Local conditions are sound and satisfactory. We are in the midst of marketing one of the most valuable crops the state has ever produced. All up and down the coast we are in receipt of reports of unexampled prosperity. With these conditions locally, our financial affairs are on the best possible basis. Suddenly, however, difficulties arise in the east, the banks find it necessary to combine their funds to protect the credit structure. Demands are diverted to the prosperous west, which must similarly protect its own community.

HINDUS DISCHARGED BY WESTERN PACIFIC

Men Are Found Unable to Endure the Work of White Men or Japanese.

RENO, Nev., Oct. 28.—Yesterday the Western Pacific contractors, employing hundreds of men in railroad construction from one end of the state to the other, sent out to Reno a large number of Hindus. These Hindus are a poor class physically as well as mentally. They cannot perform even as much work as a Japanese, and are no more trustworthy. Their work on the Western Pacific has been entirely unsatisfactory. Besides while men have refused to work with or near them.

CALAVERAS BIG TREES NOW IN FOREST RESERVE

WASHINGTON, Oct. 28.—The president has signed proclamations creating additions aggregating 490,461 acres to the Stanislaus and Lassen Park national forests in California.

The addition to the Stanislaus forest embraces land 55 miles long, covering 345,570 acres and including the famous Calaveras grove of big trees.

COPS ARE TO GET RAISE IN WAGES

Not a Voice Raised Against Charter Amendment in Campaign In San Francisco.

(Special to Republican.) SAN FRANCISCO, Oct. 28.—The policemen of this city are jubilant over the bright prospect for the charter amendment that is to be voted on November 5th, granting an increase in their pay. The measure leaves the salaries of captains at \$300 a month, but raises the monthly pay of lieutenants from \$150 to \$160, of sergeants from \$125 to \$140, and of patrolmen from \$102 to \$112.

The police have every political party and faction with them. No one has yet raised his voice in opposition, nor has any newspaper ventured to remonstrate. It has been an easy campaign for "the finest." The increases in the pay are perhaps justified, but whether or no, everybody has been eager to boost for the "cop."

IMMIGRATION TO CALIFORNIA HEAVY

San Francisco Is Being Filled Up With People from East—Many Skilled Workmen.

(Special to the Republican.) SAN FRANCISCO, Oct. 28.—A remarkable tide of immigration from the East to California has set in, according to the officials of the Southern Pacific railroad. All records are being broken and so large is the influx that "the winter" that question of being raised as to accommodation for the people.

According to present indications travel will come in with a sweep on both Northern and Southern California. It is estimated that there will be an immigration of 100,000 people to California in the next few months. The railroad reports reservations in the East for Southern California on the biggest scale in the history of the lines and passenger officials predict an unusual degree of tourist prosperity this winter for the southland. They say that the hotels here are going to find their capacity taxed.

During the past week the travel that was headed for San Francisco by way of Ogden almost resembled a rush eastward after the disaster. Most of these newcomers are artisans, attracted by the rebuilding of the city. Last Sunday 566 persons passed through Ogden for California. The figures for the week, going backward, were as follows: Saturday, 715; Friday, 738; Thursday, 563; Wednesday, 519; Tuesday, 512; Monday, 439; Sunday, 819. This almost sensational showing will continue for some time to come, say the railroad men.

This represents but one gateway. A large travel is also coming by the northern and southern routes. It looks as if San Francisco is on the way to a complete conquest restoration. The city, which has been suffering for the last few months from a very decided lack of business. Hotel construction has been the chief occupation of the builders for some time, with the result that the supply of roofs far exceeded the demand. But this has been well for the city, for the housing of people was the first consideration in inducing them and business to return.

Of course, not all of the influx is coming to San Francisco. A goodly portion of it is said to consist of settlers seeking homes in the interior. The passenger men report that the travel from the East into Southern California the months of December and January will be exceedingly heavy. The bookings have already been made, with advance payments made on the fares. The reaction has set in. It is explained from the comparatively light travel last year, when many of the Easterners went to Barbados, Florida, and other white island places. They have come to find that California's balmy skies were far for the pleasant and are coming back to them.

Power From San Juan. SAN JUAN, Cal., Oct. 28.—The San Juan Power Company has arranged to furnish this town and the cement plant near here with electricity. A new water system will be in operation here within a few days.

NO PROTESTS AGAINST PAPER

Use of Clearing House Certificates in New York Justified By Beneficial Results.

NO MORE FAILURES OF BANKS REPORTED

Increased Confidence Prevents Runs and Loans and High Price of Copper Will Bring Over More Gold from Europe.

NEW YORK, Oct. 28.—The principal events in the financial district today indicated that the worst of the crisis was over and that conditions were settling down to normal. There were no further bank suspensions, and reports were favorable for the resumption of most of the banks which closed temporarily last week.

The engagement of \$17,500,000 in gold from Europe for importation to New York was followed by the sensational announcement of sales of American copper abroad, which will further increase the tide of foreign money to this country to an aggregate of over \$25,000,000. This is with the rapid rise of gold securities on the stock exchange, some cases as much as four and five per cent, and the policy of the trust companies not to pay out currency for hoarding purposes, all contributed to strengthen the feeling in banking circles and among the public at large.

Runs upon banks ceased, partly because of recognition that they were unnecessary and unjustifiable and partly because of the policy adopted to pay large checks only in certified checks or depositary banks. This system of payment worked as apparent hardship, and was the cause of a very little protest. Small checks were paid promptly in currency, and large amounts where it was demonstrated currency was required for purposes other than hoarding.

One of the sensational features of the day was the remarkable advance in the copper trade. The United Metals, a selling company, reported a sharp advance in the price. Copper which they have been glad to sell three days ago at 12 1/2 cents a pound commanded 13 1/2 to 15 cents a pound today. During the month of October the sales of this company had been between eighty and ninety million pounds of copper. The bulk of sales have been for export, so that up to tonight, it is estimated that the total foreign deliveries during November and December there will be a return exceeding eight millions in gold.

The importation of \$17,000,000 in gold, which comes largely from London, is having a moral effect almost as important as its direct financial means that credit can be extended and business revived. The \$25,000,000 reserve lay to the amount of \$68,000,000 and that the banks will be in a position to keep their cash reserves intact.

The market was in a condition resembling suspended animation at times today, owing to the restraints placed upon the flow of banking credits. The higher range of prices prevailed in spite of the scarcity of the volume of transactions, and was an expression of the confidence generally felt that the financial crisis is now under control.

The influence derived from the general situation was modified to some extent by the readjustment of loans on the stock exchange, necessitated by the dissolution of the bankers' pool which supplied \$20,000,000 to \$30,000,000 to be loaned off the stock exchange last week. Dealers at the stock exchange reported directly to the banks which were members of the pool to secure a readjustment. The result was some dislocation in the existing arrangements which produced an effect on prices of stocks late in the day.

The dissolution of the bankers' pool was decided upon because the plan to issue clearing house certificates was considered to have done away with the requirement for this. This was a matter for the criticism of which was not considered strictly localized in the stock market, and it did not modify the feeling of relief over the measures taken for meeting the crisis in its larger field.

The widespread adoption of the exchange set by the New York clearing house in other cities by the issuance of clearing house certificates was regarded as bringing the whole situation under definite control by throwing an insuperable obstacle in the way of the abstraction of cash from the banking reserves by fractional depositors. Last week it was dreaded that such a course would proceed to a length that would not only leave insufficient currency for the cash exchanges of business but would shrink up the resources of banking circles as well. Such evidence of disarrangement of the plan adopted came to hand today were considered inevitable from its working out, and did not alter the conviction that the path of the greatest assurance of safety had been followed. In parts of the country where currency is in active circulation now in the movement of crops the greatest disturbance occurred, the wheat market being out of its reflections.

PORTLAND FINANCIERS WANT BANK HOLIDAY

PORTLAND, Ore., Oct. 28.—The bankers of this city have united in a request to Governor Chamberlain to call a five days' holiday in order to prevent possible financial complications in this city.

This crop on the market and stimulate the export movement of cotton, which will have an important effect on the foreign exchange market. Another development which came into increased prominence today was the heavy foreign purchases of copper which have been going on and which have brought a recovery from the long continued decrease in that metal. Prices of copper were marked up 1/2 to 1 cent per pound, both in the bid and asked prices at the New York metal exchange today, and there was a closer rebound in the London copper market. The foreign demand for copper is reported to continue on the rising prices and reports from the copper trade today alleged a substantial reduction in the surplus domestic supply as a consequence. This is accepted as an important index of a basis having been reached for new business in the copper industry, and the additional supply of exchange it promises gives encouragement to the confidence that the gold import movement may inaugurate will amount to large additional sums over those already engaged, which have reached \$18,750,000. London and continental discounts rose in response to our takings of gold and the continental exchanges turned strongly in favor of London. The bank of England did not officially advance its discount rate, but was reported to be making no discounts under five per cent. The stock market closed irregular. Total sales per value \$3,804,000.

FORD TRIAL MAY AFFECT ELECTION

Case May Go Into Hands of the Jury About the End of Present Week or By Monday

PROSECUTION CONFIDENT OF CONVICTING ATTORNEY

Feature of Yesterday's Testimony Was Declaration of United R. R. Employee That Books Showed \$200,000.

(Special to Republican.) SAN FRANCISCO, Oct. 28.—The end of the Henry L. Ford bribery trial will come just about election day, possibly on the Monday preceding, according to present reckonings. Unless the unforeseen interferes, the taking of testimony will be concluded at the latter end of this week. Judge Laylor is insisting on expedition and any effort to jockey for advantage in influencing the struggle at the polls is not likely to succeed.

A verdict in the Ford case can not have as much effect on the election as it would if Calhoun were on trial. The disengagement of the jury in the first case of the United Railroad's general counsel none prevented this. The prosecution some time ago announced that it would begin the trial of Patrick Calhoun immediately after Ford was disposed of and had the twelve men agreed the president of the corporation would have been in the spotlight now.

Inasmuch as Calhoun is a great big factor in the present campaign, one of the cardinal issues, it might be said, the termination of his case on the eve of election could but have tremendous effect, one day or the other. Public sentiment seems to be guided by the jury; no matter what the controversy. It did not crystallize against Schmitz until he was convicted, nor against Ruef until he pleaded guilty. If Patrick Calhoun were convicted, sentiment would be all probably crystallize against him, or it set free start a tide in his favor.

The influence of a verdict in Ford's case, if returned the day before election, would of course be important, because of his close connection with the big man who is an issue of the town. The attorneys of neither side in trial has shown any signs of seeking such a political end, for the case at bar is probably enough for them to contemplate. But coincidence may play a big part and hours toward the conclusion of the trial may take on a new and very great importance in the outcome of the election.

The case is proceeding manfully, aside from the warring of Heney and Ruef, for no new evidence of importance is being produced. John O'Hara of the district attorney's office, who is assisting Heney, and who is to be regarded as the most conservative man in the prosecution department, says that the present case is being conducted in the most efficient manner. He says that the case is being conducted in the most efficient manner.

By Associated Press. SAN FRANCISCO, Oct. 28.—Such rapid progress was made today by the prosecution in the Ford bribery trial that if the defense, adopting its procedure in the former trial, declines to put in any evidence the case should be in the hands of the jury within the week.

Twenty witnesses were examined today, all but the last one of whom were concluded with Nathan Seely, cashier of the San Francisco mint, former superior of Thomas E. Lamoreaux, San Diego and Daniel G. Coleman, Thomas P. Burns, cashier of the San Francisco mint; Eugene J. D. Francisco, sub-treasurer; Eugene J. Hawkins, assistant cashier of the mint; Charles Haggerty, also Seely's office boy; Richard L. Fox, formerly a chauffeur in the employment of Ruef; L. W. Holman, president of the Wells Fargo Nevada National bank and a director of the United Railroads; George Francis, secretary and confidential clerk to Ford; Miss Collins, former bondsmen of the late George Willcutt, secretary and comptroller of the United Railroads.

Mr. Willcutt supplied the feature evidence of the day by testifying to the unexampled surprise and manifold distrust of the prosecution that the books of the street car corporation which carry as entries the \$200,000 which Ford and Ruef are alleged to have bribed the supervisors to pass the trolley franchise. The address was directed to produce the corporation's journal and ledger tomorrow.

RENO BANKS REOPEN: CONFIDENCE RESTORED. RENO, Nev., Oct. 28. Every bank in Reno opened for business at 10 o'clock this morning. During the last forty-eight hours confidence had returned to the people, and the belief that there would be nothing which could be called a run proved to be correct this morning. A few depositors gathered at each institution and all were paid their full demands promptly. Huge stacks of coin and currency are in plain sight behind all the counters, and the general air of confidence that prevails. The institutions have done much to dispel any fear that was once upon a time. The deposits are much heavier than usual, as all the business men are availing themselves of the first opportunity of these days to get rid of their accumulated cash.

ON WAY TO CHURCH YOUNG WOMAN ROBBED. SAN DIEGO, Oct. 28.—While on her way to church last night, Miss Ella Hooker was accosted by a tall young man dressed in a dark suit and wearing a cowboy hat. The stranger asked to be directed to a certain number on Beach street. Before Miss Hooker could make reply he snatched her purse and made off in the darkness. The robbery was reported in the police box, but without good description.

SUMPTUOUS FURS AT

MODERATE PRICES

Our stocks are at their best, and it will pay you to make selections at the earliest possible moment. It makes no difference what kind of a fur garment, fur set, or fur piece you have your heart set on buying—this is the place to get it in reliable quality, for least money.

And other hats—\$7.50 to \$15.00. The styles are rare, individual, becoming. The millinery salons become more and more interesting.

Save your Premium Tickets and shop here. We serve you best of all.

Gottschalk's

Did you ever try our candy? From **15c** to **50c** a pound. It's pure—that's sure.

Central California News

HANFORD MERCHANT STRICKEN BY DEATH

Alfred M. Bridge Dies Suddenly of Lung Congestion.

Illness Was Not Considered Serious Until He Had Sinking Spell.

HANFORD, Oct. 28.—Alfred M. Bridge, a well known merchant of this city, died suddenly at his home this morning. He had been complaining for a few days, but it was not thought that his case was at all serious. He was attended by two physicians last night, his disease being pronounced congestion of the lungs. Shortly before 5 o'clock this morning he was taken with a sinking spell and as he passed away he murmured that he knew his time had come and that he wanted to go. The deceased was 34 years old and leaves a widow in this city and his parents, Mr. and Mrs. J. M. Bridge of Hayward. The funeral will be held from the family residence Wednesday, October 30, at 10 a. m. Rev. Wm. Valandigham officiating. A reception and banquet was tendered by Umpqua Tribe I. O. R. M. to the Genesee Council Degree of Poma-hontas, this evening in Masonic Hall. The Redmen sustained their reputation as royal entertainers and the program, banquet and general hospitality rendered the evening an exceptionally pleasant one.

Miss O. M. Flaherty has resigned her position as teacher in the Lemoore Grammar School.

The stockholders of the Fraternal Hall Association have been called upon by the Old Bank to pay their pro rata share of judgment obtained for \$827.

A committee of representative business men went before the supervisors today at a called session of the board, in an effort to have them ask for further advice as to the constitutionality of the law regarding the granting of franchises to electric railroad. Nothing came of the meeting, as the supervisors are determined to abide by the law as it is plainly framed.

An order was today made by Judge Convent calling for a venire of thirty men to serve as jurors in the case of J. D. Hefton vs. J. F. Pryor et al. The following names were drawn: W. H. Smith, James Cecil, Clinton Nanny, Caryl Chuzen, John Wyruck, W. J. Weir, R. R. Butler, J. L. Payton, E. G. Sellers, J. N. Hoyt, William Furman, William S. Brown, Charles Kimble, J. T. Herford, F. E. Campbell, C. R. Blakely, J. H. Butts, J. M. Richmond, George H. Rodgers, W. E. Dingle, J. T. Dunlap, P. McCarthy, Claude Hutton, J. W. Laine, A. A. Brewer, A. M. Ashley, M. C. Carter, G. H. Bollett, Manuel Homen and G. W. Ralshack.

DINUBA MASONS ARE DULY CONSTITUTED

Grand Officers Were Present to Conduct the Elaborate Ceremonies.

DINUBA, Oct. 28.—One of the most pleasant lodge functions held in this portion of the county took place in Dinuba Thursday evening when the Dinuba lodge, No. 385, F. & A. M., which has been working under dispensation since February 19th, was duly constituted and officers installed by the grand officers of the state of California.

The charter was granted by the grand lodge at its last session and the date for constituting the lodge and for installing the officers was set upon the date above mentioned. There were present Masters from Fresno, Visalia, Hanford, Kingsburg, Reedley, Orosi, San Jose, San Francisco and several other lodges.

The grand officers present were: George M. Perrine, San Jose, Most Worshipful Grand Master of the state of California; George P. Adams, San Francisco, Most Worshipful Grand Tyler; J. C. Ensign, Hanford, Most Worshipful Grand Steward.

The officers installed for the new lodge are as follows: Henry W. Ensign, W. M.; John L. Rhodes, S. W.; Frank E. Howard, J. W.; George M. Perkins, treasurer; W. R. Nichols, secretary; Joseph P. Conboy, chaplain; Wm. C. Wyman, S. D.; Isaac Van Ayr, J. D.; A. R. Wengert, M. J.; J. Rene Pfeiffer and Henry H. Burum, stewards; John S. Cash, Tyler.

The lodge now has a membership of thirty-two. At the close of the lodge ceremonies the assemblage repaired to the skating rink hall, where an elegant banquet was partaken of. The banquet was prepared by the ladies aid of the Methodist church and was a most satisfactory spread in every particular.

The singing evangelist, began a series of meetings at the Baptist church today. Mr. Stout is from Philadelphia and is said to be a great singer and evangelistic worker.

It is said that down from the Tule, here looking after property interests, Miss Jennie Boone is having an addition built to the front of her residence on South L street.

About a half inch of rain fell here during last night and this morning.

Mr. and Mrs. George M. Perkins celebrated their 29th wedding anniversary Saturday evening at their home at the corner of Mercer and H streets. There were quite a number of friends and neighbors who joined with Mr. and Mrs. Perkins in a most pleasant evening's entertainment. There was no 29th year wedding ceremony, but there were many wishes for a long continuation of the past happy marriage relations that have existed between Mr. and Mrs. Perkins for the fifth of a century.

Kidney and Bladder Troubles are the cause of many ailments. Take K. B. R. Compound, the greatest kidney and bladder remedy. At Smith Bros' Drug Store.

VISALIA CHURCH WAR IS BECOMING SERIOUS

Attorney Clark Says Vote Will Be Taken on Disunion.

Presbyterian Elders Declare That No Meeting Will Be Permitted.

VISALIA, Oct. 28.—Notwithstanding the declaration made by the board of elders of the Presbyterian church in this city that they would not permit an election to be held in that edifice for the purpose of voting on the question of union or disunion with the general church, Attorney T. E. Clark, who is the head of the disunionists, has declared that such meeting will be held at the time specified and that neither the elders or any one else has the right to interfere with the expression of an opinion by any person upon that or any other subject in defense of disunion. Mr. Clark declares that he is positively within his rights and that the injunction issued in Santa Clara applies only to property rights of the church and the bringing of additional suits. He says that he has no desire to interfere with any church service but expects to get an expression from the members as to their willingness to abandon the Cumberland church and affiliate with the general body.

Meanwhile the unionists, who it was believed were already safely entrenched behind their position, have still further fortified their position by the election of an entire new board of elders. All five of whom, it is said, are strongly opposed to the holding of the Clark meeting. The election took place yesterday and four out of the five who were present were formally ordained at the same time. As a reason for this action it is stated that two of the elders had moved away and another, it is understood, was a Clark man. Although the other two were believed to be favorable it was decided to elect an entire new board and the following, Dr. M. F. Grove, J. P. Olcott, F. E. Lewis, W. J. Calhoun and La E. Chinn, were chosen.

As the elders firmly declare that no election shall be held and Mr. Clark is just as strong in his assertions that it will, the outcome of the affair Wednesday night is being looked forward to with interest.

George Pederson, a well known merchant of this city, and Miss Mamie Bos of Alameda were wedded in Alameda on Tuesday last and arrived in Visalia this morning, surprising their many friends. The bride formerly lived in Visalia and both are well known.

A second action was commenced today by A. J. Kennedy, C. G. Wilcox and others against S. C. Brown, Harry Levinson and W. E. Fletcher to collect the sum of \$19,500 alleged to be due as commission or the sale of some 4000 acres of land in the Lindero country in this county. The action is practically a duplicate of the one filed several months ago and tried in the Superior court in which plaintiffs got judgment for \$3500. An examination of the judgment roll today, however, failed to reveal where the judgment had ever been satisfied.

The complaint recites that Brown and Levinson agreed with Kennedy to sell the latter the land for \$50,000 and receive 5 per cent commission. Kennedy later he avers, sold the land for \$67,000 to Fletcher and the money was placed in escrow pending an examination of the title. Later, Kennedy avers, Fletcher and the owners of the property got together and the latter agreed to sell land for \$60,000, leaving Kennedy out of the deal. Kennedy asks for the \$11,000 over and above the \$50,000 and also the \$2500 commission. Mastick and Partridge of San Francisco are plaintiffs' attorneys. Bradley and Farnsworth of this city were attorneys for the defendants in the trial previously had.

Sam Martin of Dinuba, who was arrested away from Hanford a week ago Sunday after attending church in the latter place, was apprehended Sunday afternoon near Ducor, in the Terrell district south of Porterville. Nevin had lost the horse and road wagon he had been driving when he left Hanford and was wandering about the country, nearly starved and very footsore. Residents took him to be insane and notified the officers. He had no idea when arrested where he was or where he was bound. The sheriff's office in Hanford was notified this morning and a deputy came for Nevin this evening. He has an uncle residing in Lakeview with whom he has been staying.

The office of Narco and Saunders is being painted and remodeled. Mr. Saunders is making extensive alterations on his residence.

There was a dance at Laton Friday evening, followed by an oyster supper at the Laton hotel.

Mr. Metz has enlarged his barber shop and started a new one on Front street.

John Hanneck returned from his ranch in the Coast range mountains Friday.

J. W. McFarland was in Dinuba Friday.

George Chittwood was in Fresno Friday.

Dr. De Hean arrived from the north Thursday.

Hill Fultz.

Justice of the Peace Graham officiated at a wedding in his court room yesterday afternoon, the contracting parties being Norma Viola Fultz, a vivacious, 24 years old, and Leonard Claude Hill, clerk in a local packing house, who also gave his age as 21.

WOULD WAGE WAREFARE AGAINST MADERA RATS

Health Officer Butin Wants Rodents Exterminated.

Sunday School Convention Thursday—Goucher Pleads for Another Chance.

MADERA, Oct. 28.—Madera is to wage war upon rats. Health Officer Dr. Butin has suggested the extermination of the rodents as a preventative of any possible invasion of bubonic plague. It is said that squirrels will also carry the plague, and this fact has caused the interior counties to take measures against any possible invasion of the dread disease.

The county Sunday school convention meets Thursday afternoon in the Methodist church, where the following program will be rendered:

Address of welcome and devotional President McCully

Vocal solo Miss Maud Williams

The Model Teacher S. C. Enos

Home Missions in the Sunday Schools Rev. Dorance

Primary work Mrs. Frank Smith

Home Department Rev. P. F. Page

Teacher training work C. H. Fisher

At 5:30 a teacher's luncheon will be given at the Presbyterian church, W. L. Williams, toastmaster.

The evening session at 7:30 will be held in the Baptist church. C. R. Fisher, general secretary California Sunday School association, will give a stereopticon lecture on "Glimpses and Echoes from Rome."

G. G. Goucher has made his tenure of office dependent on his ability to abstain from drink. He has placed his resignation in the hands of the supervisors to be accepted if he takes a drink. This arrangement was made by Goucher to forestall the threatened action of the board to prefer charges against him for intemperance and consequent neglect of duty. Goucher made a pitiful plea for "one more chance."

EXTRA WORK MADE BY THE RAIN STORM

Big Cave In at Flour Mill Corner and the New Sewer Main Was Broken, Into.

Superintendent Spencer has a gang out on the down town asphalt streets patching up holes in the pavement and overhauling culvert approaches at the street corners. The cloudburst on Saturday night also made extra work for his department. As usual, cellars were reported flooded by water running over the curbs and sidewalks because of the inability of the G street storm water ditch to carry off into Dry Creek the accumulated surface water on the streets. Among the flooded cellars, was Elisha's. There were was at the flour mill, corner of Fresno and N streets. This is the second one in successive seasons in this locality. What caused the subsidence of the soil there, leaving a hole big enough to swallow a dump cart and horse no one ventures to theorize on, unless that there is an unknown underground waterway in connection with the ancient irrigation ditch that once flowed down the center of Fresno street. The caves have occurred in about the place where in the days of old there was a deep hole and pool where was located the water operated wheel that furnished the power for the flour milling machinery.

The G street storm ditch was so severely taxed by the surface water caused down to it along Fern street that the other two avenues of escape the Inyo street box culvert across the railroad reservation and under the freight depot and the other G street storm ditch and under the railroad reservation on Kern and through Japtown to discharge in open fields far out to the west were so obstructed that they stopped over and the channels had to be cleared to prevent swamps.

The street superintendent's officials had the laugh on the city engineer's office because of an untimely for connection with the new big sewer on Kern street. The great rush on of water from the Santa Clara and Mono street sewers broke in on it in the alley between P and G at the pipe joint with the manhole and thus relieved the congestion. As a result a pump was put to work on Sunday to empty the new sewer main of the water that it was not ready to receive.

Charles Needry, one of the Meadows gang of ruffians by which Richardson, the murderer of Deputy Sheriff Price, belonged, was arrested yesterday on the charge of drunkenness. When Needry comes up for trial today it is probable that two suspended sentences on record against him will be enforced.

On January 8th of this year Needry was arrested for vagrancy and was strongly suspected of having robbed a man in the back room of a saloon. The latter charge could not be proved and he was sentenced to six months imprisonment, sentence being suspended on condition of his leaving Fresno forever. In July he was arrested for drunkenness and sentence was again suspended, this time on condition that he keep sober.

Mr. Spike was in Porterville Thursday.

John Hanneck returned from his ranch in the Coast range mountains Friday.

J. W. McFarland was in Dinuba Friday.

George Chittwood was in Fresno Friday.

Dr. De Hean arrived from the north Thursday.

Hill Fultz.

Justice of the Peace Graham officiated at a wedding in his court room yesterday afternoon, the contracting parties being Norma Viola Fultz, a vivacious, 24 years old, and Leonard Claude Hill, clerk in a local packing house, who also gave his age as 21.

THE FRESNO MORNING REPUBLICAN

Published by
Fresno Republican Publishing Co.
CHESTER H. ROWELL, Editor and Manager

FEELING BETTER

Wall street is feeling better. Which is the main thing. For there was nothing the matter with Wall street except its feelings. When it feels better, it is better. If there is anything on earth to which the doctrine of Christian Science applies it is to these Wall street paroxysms. Wall street is sick because it thinks it is sick, and the only thing it needs to do to get well is to think it is well. In fact, Wall street needs Christian Science optimism about as badly as it does Christian morality. If it had both, it would be redeemed.

And now that the flurry is calming, let us have no more of the talk that President Roosevelt was responsible for it. Not that he was not. Most likely he was. The Halloween pumpkin is the cause of the panic of the man who thinks it is a ghost and runs from it. But it is nevertheless not a ghost, and the remedy for the panic is not to remove the cause, but to cure the effect. So these money-jugglers were doubtless genuinely afraid of President Roosevelt, and their fear contributed to the hysterical stampede, at the first noise. But the remedy is not to deprecate President Roosevelt's determination to enforce the laws and "punish successful dishonesty." It is to get common sense enough to see that this is all President Roosevelt is doing, and that this will hurt nobody but the lawbreakers, who ought to be hurt. When a horse persists in shying at a piece of paper, the best cure is to drive him right up to it, and let him investigate. The best cure for Wall street's insane fear of the Roosevelt bugaboo is to compel it to face that bugaboo, and find out that it is nothing but common honesty. Which is, to be sure, a commodity sufficiently rare on Wall street to make explicable the startling effect of its first appearance.

Wall street was doing business on faith. Now it is doing it on flat money, called—clearing—house. Shortcoats. Later, those certificates will be redeemed in faith again. The millions that vanished in a dream will be restored by a breath. It is all a vaporous business, anyway.

EDUCATED PROLETARIAT

Germany is worried again about what Bismarck called the "educated proletariat." There are too many students in the universities, mostly in the professional and technical schools, with the natural result that there are not jobs enough to go around to the graduates, and the price of expert service goes down nearly to nothing. The students actually in the universities now comprise one and one-half per cent of the population, and the average income of an educated engineer, a university graduate, is \$375 a year. Other professional positions are paid in proportion.

From which it is inferred that Germany is getting too much education. But in the strict sense this can not be true of any nation. There is no such thing as too much education. If every person in a nation knew all he was capable of learning and had the highest training he was capable of receiving, it would not be too much. And more than this it is impossible. So there is no "too much" in total education. But there may very easily be a great deal too much in special training for particular jobs, which do not exist. The number of hydraulic engineers which any nation can employ is limited. If too many above that number are produced, somebody must go jobless, or find his job outside of the profession.

The remedy is in an education both more and less practical. Let the practical education train men for the jobs there are to fill, rather than confine itself to the jobs already overfilled. And let education devote itself more to pure, useless culture, which is after all, the most useful thing in the world.

German education specializes too young, and is too purely professional in the higher work. American education, for men, is tending in the same direction. Women are monopolizing the culture courses. This means that women will soon monopolize the higher general intelligence, while men will be over trained for jobs. We need more schools to train men in all the really practical jobs, now crying for men, and we need more men studying purely useless knowledge, that they may themselves grow to a larger humanity.

HEARST A REPUBLICAN?

Among the many speculations as to the reason for Hearst's throwing his influence for Ryan, in the San Francisco campaign, one very plausible suggestion has not yet been made. It is that Hearst has become a Republican, and with the proverbial zeal of a new convert, is ready to swallow anything that has the name of party regularity.

Don't laugh. The thing is not entirely impossible. Hearst is a Republican in New York, right now. He and Chairman Parsons of the Republican committee of New York have entered into an alliance, to support a fusion, Republican-Independence-League, Anti-Tammany, pro-Hughes ticket. And in spite of the mingled derision and disgust with such a messianic

naturally arouses, it is more than likely to be carried through. There is no love lost between the leaders, but between their followers there is considerable community of interest. Few New York followers of Hearst believe in either the man or his doctrines. They share his disbeliefs and his enmities rather than his beliefs or his friends. They are radicals only in a desire to smash the existing New York situation and depose Tammany, and in this sense the reform Republicans are radicals, too. So for the present purposes of New York politics, Hearst is a Hughes Republican. Who shall say that this may not be among the reasons why, for the present purposes of San Francisco politics, he is a Ryan Republican?

TWO MEETINGS

There should be a full attendance at the mass meeting in the Chamber of Commerce building at 8:50 tonight, to discuss ways and means of meeting the county division emergency. This is a very important and a very critical matter. It is not merely a matter of practical importance to maintain the present size and rank of Fresno county, though that practical importance is very large. There is also a sentiment and a principle involved. We are a governmental unit of long standing, and we ought not to be disrupted merely because of the temporary inconvenience of a railway time table and the exaggeration of some local jealousies. The general application of this principle would change the boundaries of half the counties in California, and subject all boundaries to unsettlement at every legislative session. "Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes."

There should also be a large attendance of Republicans at the meeting tomorrow night in A. O. U. W. hall, Risley building, on Fresno street, to organize a local club of the Lincoln-Roosevelt league. The very fact that there is no present local issue calling for the activities of such a club makes this the most propitious time to organize it. There is no obstacle to harmonious local organization, uniting all elements of the party in the common cause of re-establishing self-government in the party. The state of California is aroused and is rapidly organizing to this end. Fresno, as one of the first communities to achieve its own independence, should also be one of the first to organize in the cause of the common independence, without which local independence is of little avail.

CLEVER SCHEME, BUT UNCLE SAM OBJECTS

Transparent Envelopes With Opening Exposing Stamp on Enclosed Postal, Are Taboo.

Postal cards cannot be mailed in envelopes unless the stamp is on the envelope and not on the card. A ruling was made some time ago requiring certain postal cards to be inclosed in envelopes. But that order spoiled half the fun of sending them and prevented the card itself from receiving the postoffice cancellation stamp, which all collectors value as showing that the card was actually sent instead of bought at a local store. So the manufacturers hit upon a scheme to get around the postoffice order by making transparent envelopes for the cards, and cutting out a square for the stamp. The stamp was then placed on the card, the cut out square of the envelope enabling it to receive the cancellation mark.

Postmaster Short wrote for a ruling on this evasion and received the following:

"Post cards and postal cards mailed under sealed envelopes (transparent or otherwise) are charged with postage at the first-class rate—two cents an ounce or fraction thereof. If inclosed in unsealed envelopes, they are subject to postage according to the character of the message—at the first-class rate if wholly or partly in writing, or the third-class rate (one cent for each two ounces of fraction thereof) if entirely in print; and the postage should be affixed to the envelopes covering the same."

"Postage stamps affixed to such cards inclosed in envelopes having an opening exposing the stamps can not be recognized in payment of postage thereon."

"However, where such cards, properly addressed and prepaid—bearing no matter rendering them undeliverable under Postmaster's General's Order Nos. 146 (par. 6) and 539 (par. 4) when sent openly in the mails—are inclosed in envelopes, it will be assumed that they were inadvertently sealed under cover, and they may be removed therefrom and dispatched without additional payment of postage."

MISSIONARY SOCIETY ALL-DAY SESSION

The Woman's Missionary society of the Congregational church will hold an all-day session in the church parlors today. The men of the church and their friends are invited for luncheon at noon. The members of the society are requested to attend prepared to serve for the missionary hour.

St. James Guild will meet this afternoon at 2 o'clock at the rectory. A full attendance is requested as this is the last meeting before the Christmas season.

BOY CUT TO PIECES BY STOCKTON TRAIN

STOCKTON, Cal., Oct. 28.—A Santa Fe freight train moving through the local yards this evening crushed out the life of Fred Mahood, a lad aged 13 years, instantly killing the boy and cutting his body into pieces. The boy jumper from a freight car standing on a sidetrack, landing on a flat car of a moving train and went under the wheels. He was at play when he met his death and his body attached to the railroad track. The boy was a son of a window glass blower employed at the local factory.

WORKING ON PARK ROUTE

Surveyor Newman Again Surveying Yosemite Line.

Railroad Situation in the San Joaquin Valley Is Improving.

As indication that the Fresno-Yosemite railroad is coming out of its lethargy of the past months, Emil Newman, who surveyed the route into the valley has gone back to the work and is seeking a route which will have less curves and so cost less to construct and maintain.

Newman selected the proposed route and then the whole thing seemed to be dropped, which was the cause of many conjectures in local circles. Some people even went so far as to say that the project had been given up, or that it would not be resumed for a long time at least.

Now that Newman is back at work again, the prospect for the Fresno road into the valley under the Huntington-Harriman interests is much brighter. The fact that the Southern Pacific had everything possible to hamper the road during the past summer in carrying tourists into the valley, probably accounts for the renewed activity.

It is an open secret that the Western Pacific is the real power behind the road. To embarrass the Gould line, the Southern Pacific refused to sell through tickets which would be acceptable on the Merced road. The Southern Pacific drew all the passenger traffic possible from the Merced line by running a stage line by way of Wawona, and owing to the advantage they had in selling the first tickets over their own line, diverted a great many passengers from the Merced road and out into the business of the latter seriously.

As proof of the reported alliance between Huntington and Harriman, W. F. Harrin, the Southern Pacific political boss, has assumed charge of the Pacific Electric trolley lines in Los Angeles during the illness of Mr. Huntington in the East.

Harrin is practically "Harriman" on the Pacific Coast; he is also vice-president of the Pacific Electric lines, owned by Huntington, which really makes him a high ranking officer in the councils of the traction kings in the West.

Then, as Huntington is behind the Fresno-Yosemite road, and is to all purposes in a partnership arrangement with Harriman, the Fresno-Yosemite road practically becomes a branch of the Southern Pacific and when the road is built it follows that the Southern Pacific will sell through tickets via Merced to prospective visitors of the famous park.

Following that line of reasoning, which is the gospel of local railroad circles, the Western Pacific will be compelled to build down into the San Joaquin valley and have the road in operation by the time the Fresno-Yosemite road will have to go out of business for want of passengers.

The progress of the Fresno road will dictate to Gould how rapidly he will have to get into the San Joaquin valley.

CANNON BOOMED FOR PRESIDENCY

Fourteen Illinois Congressmen Have a Conference at Which the Campaign Is Started.

CHICAGO, Ill., Oct. 28.—Speaker Joe G. Cannon's official campaign for the presidential nomination was started today at a meeting of fourteen Illinois Republican congressmen at the Auditorium.

Cannon, before the meeting, had declared that he was not a candidate for the presidency, but when the speaker was called in at the end of the three hours' conference, he said:

"Well, boys will be boys. Do as you please."

Five other Illinois congressmen, who were unable to be present, are also back of the movement. Congressman McKinlay was made chairman of the committee which is to have charge of the campaign in Chicago.

NEGRO CREATES A REIGN OF TERROR BEYOND TRACKS

Arthur Lewis Tries to Kill Girl Who Refused to Marry Him on Auto Ride.

ALBERT LEWIS, a negro from Stockton, created a reign of terror in the vicinity of Fresno and O streets last evening and battered down the doors of the house in which Bessie Brown, a negro with whom he is infatuated, lived. He escaped arrest at the time, but was gathered in at the Santa Fe station by Policeman Machen and Goehring at 1 o'clock this morning and looked for breach of the peace.

Lewis, who formerly lived in Fresno and is well known here, arrived in town three days ago and had been displaying the negro population with his lavish expenditures until his arrest last night.

Yesterday he chartered two automobiles, filled them with men and women and proceeded to patrol the main streets and most popular drives, stopping at frequent intervals for refreshments. At his side rode Bessie Brown and during the afternoon Lewis proposed marriage to her. When refused he said that the girl would marry him or he would kill her.

As Lewis has the reputation of being a dangerous man, when he appeared in front of the Brown home on Fresno near O streets last evening and loudly demanded to see the object of his affections, he was refused admittance. He kicked in the door, smashed windows and was engaged in an attempt to tear down the facade of the building when he was told that

the police had been sent for. He then jumped into his waiting automobile and disappeared. When found at the railway station last night Lewis was unarmed, though he is credited with generally carrying a revolver.

HISTORICAL SOCIETY TO CELEBRATE FOUNDING

Anniversary of Planting of Santa Clara Valley Mission Will Be Observed in November.

SAN JOSE, Oct. 28.—November 19th will be memorable in the history of Santa Clara, for on that day will be celebrated with civic pomp and ecclesiastical ceremony the event of civilization and Christianity in the valley. The Santa Clara Historical society, aided by the faculty of Santa Clara college, has succeeded after much labor in locating the first and second sites of the Mission Santa Clara and the coming celebration will partake of a double significance in the simultaneous commemoration of both events. The Franciscan padres planted the mission cross in the newly discovered valley on January 12, 1777, the religious symbol having been raised on the banks of a little stream called since that time the Guadalupe river and at a spot now forming part of the Laurel Wood farm, belonging to the Peter Donaghy estate, south of the Agnew asylum.

In 1779, however, a flood destroyed the primitive church and monastery and in consequence, the padres sought higher ground for a site and located at a point only 100 yards west of what is now the Southern Pacific railway depot, planting their cross on land which is now the property of the city of Santa Clara and which the municipality has decided to convert into a public park.

The date chosen by the Historical society for the celebration is the birthday of Santa Clara, for within what are now the western limits of the city on November 12, 1781, the padres laid the foundations of a large adobe church and mission buildings. The religious edifice on that site was dedicated by the famous Padre Junipero Serra, superior of all the missions and pioneer of pioneers, along the Pacific coast.

HITCHCOCK ARRESTED ON CRIMINAL CHARGE

Noted Actor Declares Himself Victim of a Blackmailing Scheme.

NEW YORK, Oct. 28.—Raymond Hitchcock, the actor who is starring in a musical production on Broadway, was arrested today on a charge of criminal assault. The arrest was made following a visit to Assistant District Attorney Carvins' office of two young girls who were closeted with him for more than two hours.

Mr. Hitchcock refused to make any statement concerning the charge against him. He recently caused the arrest on a charge of blackmail of the brother of one of the girls who made the charge against him today.

He said the man demanded \$2,500 to prevent the publication of the story in the newspapers.

Hitchcock was held in \$2,000 bail for hearing Thursday.

ALASKANS WANT THEIR GOVERNOR INVESTIGATED

Will Also Agitate in Favor of a Regular Territorial Government.

SEATTLE, Wash., Oct. 28.—M. J. Sheldon, O. P. Hubbard and S. Root were elected delegates from Valdez to the Juneau, Alaska, convention at Saturday night's Republican primary, and were instructed to vote for territorial government. The Roosevelt administration was endorsed by the primary, and District Attorney Harlan was recommended to succeed Judge Wickham. Resolutions were adopted asking that Governor Hoggett's conduct be investigated.

TACOMA POWDER WORKS TO BE CLOSED DOWN

TACOMA, Wash., Oct. 28.—Orders were posted today on the grounds of the Dupont Powder Works, south of Tacoma, that all men would be laid off, indicating a suspension of the huge operation. The concern has under way toward building a large powder plant here. About 100 men are affected. No reason is given for the action.

OPPORTUNITY NEVER WAITS

THOSE WHO ACT PROMPTLY REAP THE REWARD. IT WILL PAY YOU TO READ AND CONSIDER THIS ARTICLE.

A large number of persons have taken advantage of the opportunity offered them by Kohler & Chase, and have secured pianos at a saving of a third from regular prices by joining the Kohler & Chase Piano Club now forming.

The club is limited to 100 members, taking one each of the Model M \$400 Kohler & Chase pianos—the club price being \$287, instead of \$400, which is the regular price.

To join the club you merely sign our regular form of contract (if you desire to make time payments), which contains the free life insurance clause, pay \$10 and the piano is sent home at once if in the city or to the depot for shipment if to out of town members. No waiting, no delays, and you get a piano guaranteed as to workmanship and material for the "lifetime of the instrument"—the strongest warranty ever given with a piano by a reliable house.

A call at the store will fully repay you if in need of a good, durable and reliable piano at a saving of nearly \$125. If not convenient to call write for booklet "L", which will give full particulars of the club plan. Address

Many New Coats Make Their Appearance for the First Time Today
Long loose coats in a fine quality of broadcloth in all the popular shades as well as black. The colors are suitable for evening wear and make practical street coats as well; peau de cygne silk lined \$25.00
Tight Fitting Broad Cloth Coats
In Black at \$15.00.
The quality of broadcloth used in this coat is far superior to the usual run of cloths in coats at this price.
The tailoring is very good and much depends on the cut and tailoring as well as the cloth.
\$15.00 for a splendid coat.

\$5.00 Net Waists. \$3.35.
Elegantly trimmed with shiny lace; very stylish waist for the price.

\$5.00 Dress Skirts. \$3.95.
Made of Clifton pattern, with plaits fold on bottom, black and blue.

Kutner Made Klotches

Are every bit hand tailored—everything about them is of the best. Kutner-made doesn't bear the profit of the usual run of store-clothes—because we build the best we can to sell at \$20.00 and \$25.00.

More New Spat Suits Arrived Yesterday.
Young men, please take notice.

Bargain Basement Offerings.

WE CHALLENGE THE CREDIT STORES TO EQUAL OUR PRICES

It's the under dog that squeals. Step on a man's sore corn and he yells. The cash system is a thorn in the side of the credit stores.

It is truly laughable to read the irrational argument given out by the credit octopus, the trust busters and the stores that save YOUR money. The idea that sane people can be made to believe that credit stores can sell as cheap as cash stores. You can't fool the people all the time—ask the poor farmers who have lost their ranches because they have been tied down to outrageous credit store profits for the past thirty years. Ask them if they are not now saving money by buying their merchandise from the Cash Store. Ask all the economical people who go around and compare prices.

THE WEATHER

SAN FRANCISCO, Oct. 28.—A storm of moderate energy has appeared off Vancouver Island and is moving slowly eastward. It has caused cloudy weather over the coast and over portions of the Sacramento valley and showers over Washington, Idaho and Northern Oregon. Fair weather prevails over the southern half of the Pacific slope. There has been a slight rise in temperature east of the Rocky mountains. Conditions are favorable for fair weather in California. Tuesday except cloudy and probable showers in the extreme north portion. Forecast:
San Joaquin valley—Fair Tuesday; light north wind.
Temperature city light 67
Temperature over hills 58
Humidity 53
Wind W. 4 mi. per hr. 14
Maximum temperature 67
Minimum temperature 47
Today's rainfall 0.08
Rainfall to date 1.08
Fair tomorrow.

General Conditions
Reports are coming from the Gulf and Atlantic states. An area of low pressure over the region east of the Ohio valley, accompanied by cool weather, with rain or snow in the lower Lake region, hence southward to West Virginia. Snow is falling at Elkins, Utah, passing the Mississippi valley, with freezing temperature over its northern portion. Killing frost occurred at Cairo, Illinois. A touch of low pressure extends from British Columbia to the coast, causing unsettled weather and light rains over most of the region west of the Rocky mountains. Heavy frost is reported from Independence. The pressure is increasing over California and conditions are favorable for fair weather at Fresno and vicinity tonight and Tuesday.
J. P. BOLTON, Official in Charge.

COUNTY CLERK'S OFFICE IS ALL Topsy-TURVY

As Part of the Program in Overhauling the County Courthouse Building.

County Clerk Miles' office is in a topsy-turvy condition, owing to the presence of the painters and the appearance of the carpet cleaner last Saturday to take up the floor coverings. The lady deputies had to move from place to place yesterday to dodge the splashes that marked the progress of the painters' lining the ceiling. The desks and chairs rolled into corners with the help of the rough work of the carpet takers up for the general cleaning and it was evident from the general disarrayed state of the furniture that the janitor did not pay his daily visit on Saturday evening. The carpets will be given a cleaning, the walls are being painted a dull olive green and the ceiling will be that of a cream color. This is part of the work received upon by the supervisors last July, when additional room was provided and the quarters of Auditor Barnum were enlarged to provide more storage capacity for accumulated records, when the hall corridors were painted and tinted and incidentally the court room of Judge Austin. A third section of the work then provided for was the transformation of the federal court room, used also as a place of assembly for the grand jury, into quarters for the district attorney; the rooms now occupied by that department to house new persons being a portion of the rooms of the county clerk.

Chairman Hall of the board of supervisors has been dropping hints lately reviewing the subject of the need of a hall of records detached from the main court house building. "We would have this new proof building located near the M and Tulare street corner of the court house grounds, but this project cannot seriously be considered before the next tax levy. It is, however, the next large improvement that the supervisors have in contemplation."

CITY AUTOMOBILE IS NOW PROPOSED

Municipal Buzz Wagon to Visit Sewer Farm.

Also to Entertain Visitors to the City—Fresno as Chauffeur.

There is talk at the city hall of creating an office not provided for under the charter—that of the city chauffeur—to have charge of the city automobile for the special benefit of Acting Mayor and Chairman of the Sewer Farm Committee Statham and his fellow-members of the committee, Suglin and Myers, the particular accommodation of City Engineer Hoxie, the father of the sewer farm and sewer tank enterprise, and for the general use when not otherwise spoken for by the sewer farm, by city officials generally who have calls for hired heavy rigs.

The city automobile is urged as an adjunct to the sewer farm proposition which has reached that stage that the committee in charge will have to make frequent visits when the sewer tanks are operating to see to it that the effluents do not run into the city sewer farm, but knuckle down to being properly disposed and distributed as well behaved citizens should do. The city engineer will also have to be in daily attendance to see to it that with these untrained effluents in fact has almost made up his mind to take up soon a temporary residence with the caretaker in the bungalow that the city will erect. Hoxie says that the house may not be a bungalow in fact, but that is as good a name as any by which to call it.

Hoxie is provided by the city with a white horse and red buggy which he calls his "white steamer," and while he is quite content to continue with that mode of conveyance for a while he is handy on his sewer work for the conveying of picks and shovels and stakes, yet the fact remains that he consumes three hours on a journey to and from the sewer farm and he and the committee cannot give up that much time when the visits will be a necessary daily routine.

The argument is made that the existing of heavy rigs will in about a year make up for the cost of an automobile. The proposition for the city to purchase one has already been made to the board of engineers, being immediately asked for a second-hand automobile and time annihilator. The plea is advanced also that there need be no appreciable cost for maintaining the automobile, as it would be housed in one of the fire engine houses and a fireman detailed as city chauffeur, who would take such ride in the auto as to keep it always in first-class running order and appearance for the mere pleasure of being in charge and thus frequently escape the dull routine of life about the engine house.

The advocates of this latest proposition argue that not only would there be an auto in the service of the city to do away with much of the liverly hire, but there would be a vehicle in which official visitors could be shown courtesies and the lights of the town. Furthermore the deputy mayorship is only an empty honor at best and as a big frog in a small pond Acting Mayor Statham in his official visits to the sewer tank effluents could swell up as an offset to the mayor in his scarlet auto race.

MAKING VISITS TO THE NEARBY SCHOOL DISTRICTS

Fairview Will Call Bond Election to Vote \$8000 for Another Schoolhouse.

Superintendent Lindsay is daily making inspection visits to district schools located not too far away from the city. Yesterday he took a ninety-mile drive to the Houghton district in the White's Bridge country. This school has such a large attendance that three rooms and two assistant teachers are required this term under Miss Myrtle Kions. The attendance is large with an enrollment of 250 in classes of thirty, forty-eight and forty-two.

The county school directory, which Superintendent Lindsay has completed, will be ready for distribution to the teachers tomorrow. Demands for this publication have been many. The publication may be had for the asking. Mr. Lindsay devoted his spare time for two months during the vacation season in compiling the data.

The trustees of Fairview school district, located north of Sanger, held a meeting last Saturday night and resolved to call an election to bond the district for \$8000 to erect a new school house. The district is one of the oldest in the county and has a school enrollment of forty-one pupils.

DIED
KNOX—At Davis, October 28, 1907, Mrs. Ellen Knox, a native of Ireland, aged 62 years.
Funeral took place from A. B. Hays and Sons' undertaking parlors, 2100 Broadway, at 2 o'clock, Interment in Mountain View cemetery.

One of the advantages of Grape-Nuts food is that it is pre-digested in the process of manufacture.

The starch contained in the wheat and barley is transformed into grape-sugar by exactly the same method as this process is carried on in the human body, that is, by the use of moisture and long exposure to moderate warmth, which grows the diastase in the grains, then long baking completes the remarkable change from starch to grape-sugar.

Therefore, the most delicate stomach can handle Grape-Nuts and the food is quickly absorbed into the blood and tissue—certain parts of it going directly to build and nourish the brain and nerve centers. "There's a reason."

We have the best 12 1-2c Tennis Flannel in town.

AGENTS STANDARD PATTERNS

Fruit and Raisin News

A LITTLE MILDEW REPORTED ON RAISINS

Second Crop Also Reported as Going to Wineries—Deliveries Were Better Yesterday.

It was reported yesterday that some bunches of the first crop of muscats have become mildewed as the result of the recent heavy showers, and that offers have even been made to the wineries to sell them first crop grapes at a sacrifice, as it had been spoiled for the regular raisin trade. One packer stated that out of a block of forty tons he had contracted, ten tons had withered, and would not be fit for delivery.

It is also reported that the second crop has suffered considerably, and that some of it also is being offered at the wineries, to be used in the crush. Deliveries to the packing houses picked up yesterday, as the weather was very good, and, since the car situation is now improved, the amount of business done in the houses yesterday was very large.

Out in the field, three concerns are said to have paid four and three-quarters cents a pound for raisins yesterday, which indicates not only the fact that the packers are going back into the field to buy to some extent, but also that they are going back at a figure considerably better than was hoped for some days ago.

Taking the situation as a whole, one packer stated yesterday that he considered the market stronger, and less inclined to sag than it had been for some time past.

Most disfiguring skin eruptions, scrofula, pimples, rashes, etc., are due to impure blood. Burdock Blood Bitters is a cleansing blood tonic. Makes you clear-eyed, clear-brained, clear-skinned.

Itching piles provoke profanity, but profanity won't cure them. Doan's Ointment cures itching, bleeding or protruding piles after years of suffering. At any drug store.

HIGH OFFERINGS MADE IN ORANGES

Good Prices for Local Early Shipments.

\$150,000 Output for Season Expected—Citrus Fair in December Suggested.

Arthur J. Hill returned yesterday from a trip of inspection to his orange grove in the Mount Campbell country. He reports the orange business flourishing now, and some of the fruit almost ready for the shipping. He further reports the citrus growers as very much interested in the project for the holding of a citrus fair in this county some time this winter, after the harvest of the crop is well under way. In this connection he says:

"I consider having the citrus fair in January as some persons have suggested, too late to secure the best results in the grower in the locality. It would be better to hold it in December. The Tulare county exhibitors, at the close of the citrus fair in that county, could bring their exhibits to the fair in this place. January is too late to secure the best results, because Fresno citrus fruits are early, while the later fruit of Southern California is going into the market at that time, and would detract from the interest and benefit. From December 15th to the 15th or from the 15th to the 1st are the best dates in my opinion."

"The price for the opening of oranges is now very high, \$1.45 per box at the packing house has been refused this season. This is better than the first early offers last year."

"As an evidence that the orange industry here is attracting a great deal of attention, a great many people from Southern California are coming in here, and are trying to pick up lands, to go into the orange business. The oranges of this section of the state are very much better than those of the more southern groves, and they have a very good market offered them on this account. The last Valencia are now just about out, two cars per day being the total shipments, and there is no fruit of this class in the market. It is bare and in the best state possible for the reception of the local early product. Mount Campbell oranges will be shipped out to the market by the 15th of November this year. This will give them the monopoly of the holiday trade where California goods are in demand."

"A great advantage of the foothill orange of this county and the adjoining sections is that it will stay on the tree, ripe, from the middle of November until the middle of the following June, and the grower can pick his own time of getting them off the trees and sold."

This matter of early oranges is being experimented with by Mr. Hill just now. It is well known that the oranges, if picked when at the proper stage of maturity, though it is not yet ripe, will ripen if ripened in tissue paper, and allowed to lie, thus, for eight or ten days. In this way, the early shipments from the Porterville section are made, and Mr. Hill is to try it in this county. It is said that by the time this fruit reaches the eastern markets, it is in good eating condition.

The output for the county this year is expected, in the commercial line, to be about \$150,000. Of this, ten or twelve car loads will come from the foothill district, principally about Mount Campbell.

This is said to be a coming industry in the county, and, while some years ago, a man kept and cultivated an orange grove largely as a matter of sentiment, it is now very profitable, indeed, and has assumed a very decided commercial aspect. A part of the orange crop of course is raised in the valley lands. While the fruit of these trees is said to be inferior, especially in the color and texture of the rind, still this adds a great part to the volume of the business done.

Chamberlain's Cough Remedy

During the past 35 years no remedy has proven more prompt or more effective in its cures of

Coughs, Colds and Croup
than Chamberlain's Cough Remedy. In many homes it is relied upon as implicitly as the family physician, as containing no opium or other narcotic, and may be given as confidently to a baby as to an adult.

EXPECT TO BEAT LODI TOKAYS TO THE MARKET

Baker Bros. Planting Foothill Vineyards, Which They Think Will Produce Early Fruit.

Baker Bros., one of the most successful vineyard firms in the county, is now going into the foothills, to make a try there with shipping grapes, principally of the red varieties. It is said that they expect in a short time, if they have the usual experience in getting their fruit to get their goods into the market four days ahead of the Lodi tokays. This will of course be a big thing, especially in the height of the opening prices, and may mean a great deal of money not only to the enterprising firm, but to the county as a whole. If the land owners and vineyardists make any advance on this line of speculation.

The grapes being planted are, of course, tokays and emperors, which can be raised to the best advantage only in the heavier and iron impregnated soil of the foothill districts, as they never have the desired color very early in the season if raised in valley sand. Eighty acres have been put out. The trial will be watched with interest by many persons connected with the shipping grape industry.

EXPERIMENTING WITH CHILI RAISIN STOCK

Government Viticulturalists Are Interested in Superior Raisins Grown in South America.

George C. Hummann, chief of the viticulture department of the United States department of Agriculture, in speaking of raisin grapes said in a recent interview which has been made public, that some time ago he received from Chile some of the finest raisins he had ever seen, and upon inquiry was told that they were made from the regular Muscat or raisin grape. But as the raisins were superior to any made here he came to the conclusion that either they had a better raisin grape or else they have some advantage over the Californians in curing the raisins. He then had some of the grapes sent to Washington, and from what he could find out they do not differ materially from the Muscat. Later he imported some of the cuttings and has planted them beside a regular Muscat and will observe the vine carefully and see what the difference is, if there is any. If there is no difference, he will then turn his attention to find out how the people in Chile cure their grapes so as to give such a splendid raisin. Mr. Hummann was recently in this county to visit the experimental farm which is being conducted here, and at that time expressed himself as very much pleased with the work in this locality.

BLACK FACES AT BARTON TONIGHT

West's Minstrels Promise to Prove Good.

The Old Fashioned Burnt Cork "Artists" Are Said to Be Real Article.

William H. West Minstrels make their appearance at the Barton tonight. The attraction is said to be well mounted and carefully staged, and the company includes some of America's most clever people. Among them—Minnie's season-long success for the company, a negro entertainment than for the glitter that sometimes covers up a lack of talent, at the same time he has not forgotten the surroundings, and the result is a very novel and enjoyable performance. The opening part styled, "The Awakening of Dawn," is a very attractive piece of stage arrangements, the grand entry being an innovation to minstrelsy.

Rosewell J. Wright, the noted soprano; Lloyd Balliet, James Cantwell, and William Renaud are a corps of ballad singers backed by a chorus of twenty trained voices. George Van and Billy Graham, the principal comedians, are too well known for comment here and are ably supported by six clever story tellers and songsters. The first part, concluding with an artistic arrangement of clever songs and dances, the evolution and execution being difficult and finished.

The olio opens with a number of new, novel and really sensational specialties, among which appear the European novelty act of Cameron and Toledo, having the reputation of being one of the cleverest of the day, and beautifully staged. Major Smith, the famous comedian, with an excellent voice, the Battle of Four, a quartet of singers and dancers who stand at the head in their particular line. The music being far above the average, and as of old, the West show this season stands out prominently as the real leader in minstrelsy.

Seats are on sale all day, prices 25c, 50c, 75c and \$1. The street parade will be given at 3:30 this afternoon.

"The Stronger Sex." Miss Maude Pealy and her large company of players will be the attraction at the Barton next Saturday night. It will be a matter of interest to all lovers of the better things theatrical to note that this gifted and refined artist who is advertised so extensively and so truthfully as America's youngest dramatic star has secured for presentation this year the great English success, "The Stronger Sex," which comes to us with the record of seven months' presentation in London at one theater before the very "little" of English playgoers. "The Stronger Sex," from all accounts, is the real "hit" of the London stage and bids fair to more than duplicate its great popularity over here. The three acts are remarkably well constructed, each leading up to a climax of strength and truth. There is also a vein of comedy running through it that is bright, breezy and original. Miss Pealy is splendidly cast

In the leading role of "Mary Warren," the Texas girl, for her gentleness of disposition—her artistic dramatic talents, and her grace and stage presence fit the requirements of the character in every sense. The seat sale opens tomorrow morning. "The Texas Ranger." The "Texas Ranger" will be presented at the Barton next Sunday night for the opening performance of a three night engagement of Lee Willard and his company. The story is laid in the West. It is beautiful because of its simplicity, because of its truth and the lesson it brings home to every heart. It is enjoying its fifth season of unwavering success. It is refreshing in this day of imported problem plays to be able to listen to an American play by an American author. A play mostly of plain folk action in the ranks of the sunny plains of the glorious West: a play in which the heart that is good wins out above the bad one which is in the end broken; and in it are intermingled comedy, pathos and tragedy. The theater-going public of this city are promised a performance equal to the very best now being produced. Lee Willard, proprietor, has charge of the staging of the production and it will receive the same artistic treatment which characterizes all his work. The company is composed of well-known capable artists. The seat sale opens next Thursday, prices 10, 20, 30 and 50 cents.

THOUGHT SAN FRANCISCO LICENSE GOOD IN FRESNO

S. Sahryama, a Japanese, was fined \$10 by Police Judge Briggs yesterday for selling goods without a license. Sahryama installed a stock of dry goods in a small shop in the Chinatown district and when arrested by Police-men Maehen and Enos, exhibited a license to sell goods in San Francisco, which he said he thought was good throughout the state.

Events In Society

A very happy bit of news comes in the announcement of the engagement of Miss Almee Newman to Horace J. Brown of the Sacramento Star but formerly editor of the Fresno Tribune. During the winter past the attentions of the young newspaper man were very marked and all the friends of the two young people suspected a romance, but it is not until the bride-to-be has set the wedding day that the engagement is publicly acknowledged. November 16th is the day set for the nuptials and it is safe to predict some very delightful events before this wedding for this popular bride-to-be. Although her residence in Fresno has been but a few years she has made many acquaintances and numbers of warm friends who will be deeply interested in her happiness.

There is no more girl nor accomplished girl in Fresno than Miss Newman. Her musical talent has won her admirers on every hand and in addition to her gift as a pianist she possesses more than ordinary mental attainments and is an all round clever girl, vivacious and winning and personally most attractive.

The prospective groom has the respect and admiration of the most prominent business men of this city, among whom he enjoyed a wide popularity when he lived here. His natural ability and cleverness have fitted him admirably for the positions of responsibility which he has held and hearty congratulations are his in abundance.

Mrs. Emory Donahoe left on Saturday on a delightful motor trip to Southern California. She is the guest of Mr. and Mrs. Maxon of Los Angeles, who have been spending a few days during the past week in Fresno, having motored up from Los Angeles in their handsomely appointed car. En route to Los Angeles the party was joined by Mrs. Barbara and other coast resorts and will be back in Fresno by the end of the week.

Miss Birdie Woods of Sanger, who has been spending the past year with her aunt in Seattle is expected home shortly to make ready for a European trip. Miss Woods is blessed with a veritable fairy godmother in this devoted aunt, who makes all sorts of lovely things come true, and is giving her favorite niece all the pleasures and advantages of travel possible. Miss Woods is an enthusiastic and unusually pretty girl with a keen appreciation of all the pleasures which come to her.

Mrs. Cynthia Lyman and daughter, Miss Mary, will leave tomorrow morning for San Francisco for a month's visit with Captain and Mrs. Huntington at the Presidio. The captain and Mrs. Lyman are cousins and the Huntingtons visited in Fresno last year.

A society briefly in last night's Call tells of the arrival from the East in San Francisco of Mrs. Virginia Meyer. The Fresno bridge enthusiasts will be interested in this news, for Mrs. Meyer and bridge classes in Fresno last winter and was a particularly fine instructor as well as an interesting woman. It seems that Mrs. Meyer is to teach the an Francisco Smart set to play "skat," a game which is fast replacing bridge through the East, but likewise a very difficult one. When Mrs. Meyer was last in Fresno, she said she would undertake to teach applicants the game unless they had exceptional "card sense" and were experts in bridge. Will Fresno come to "skat" is the next question. As long as the present bridge furore continues it is safe to predict a "bridge season" again for Fresno. Society was very slow in taking up this game, but when it once "struck the town" nothing can displace it.

Dr. and Mrs. Lou Teague of Oakland have come to Fresno to take up their residence here for the winter. Dr. Teague has interests about the country which require his presence here and Mrs. Teague joined him last week. They have apartments for the present at 1086 M street. Dr. Teague is a brother of Charles Teague and of Mrs. E. N. Griffith. His wife is a very charming woman, who will be a distinct addition to local social circles.

Miss Hazel Uridge is expected down from Oakland next week to visit Mr. and Mrs. Willis Pike and be a guest at the first Frochscholtz dance of the season on November 7th.

The board of directors of the Young Women's Christian association met yesterday afternoon to talk over plans for a bazaar which the ladies expect to hold the first week in December. Mrs. J. M. Brooks is chairman of the bazaar committee. Another meeting to decide the place and date of the event will be held at the association next Monday.

The German class is one of the most flourishing of the organizations just now, although the business girls' gymnasium class, under the direction of Mr. Swift, is in most flourishing condition. The class in embroidery and painting, which Mrs. S. L. Wiley is to have charge of, expects to begin soon and offers excellent opportunities for girls who have taste for this work to get the best of training from one who is well versed in the art herself and quite capable to guide others.

Mrs. John D. Morgan, again to be the efficient chairman of the social committee, was feared that she would work again this year, but her decision to remain in her place has caused general rejoicing. A social is being planned for the second week in November.

Miss Gladys Robertson, daughter of Mr. and Mrs. William Robertson, who has been abroad at school for the past two years, arrived in New York a week ago and is at present visiting Mr. and Mrs. John Lewis in Louisville, Ky. From there she goes to Texas for a short visit with an aunt, arriving in Fresno in time for Thanksgiving. She crossed the ocean on the new steamer of the Anchor line, "California," on its maiden trip, and while the first few days out of port were stormy and rough, the voyage on the whole was a delightful one to this plucky little sailor, who, although Scotch born, is a true American with all of the American girl's vivacity and independence. She will be most enthusiastically welcomed by all of her friends here, who are anticipating her home coming with as much pleasure as she is herself.

I. H. Clark and Curtis Clark of Oklahoma arrived in Fresno last Friday on a visit to their sisters, Misses Freda and Lulu Clark. A reunion at

the family residence at 727 I street Saturday night brought a number of relatives together in a happy family gathering. Those who were present were: Mr. and Mrs. J. H. McNeill, Mrs. Violet and Mr. Burke of Selma, Mr. and Mrs. T. F. Fennick, their son and daughter, Harry and Lunette, of Sanger, Mr. and Mrs. J. A. Reynolds and little daughter, Gladys, of Dinuba. The only ones absent from the family circle were two brothers, one in Alaska, the other in Panama.

The Query club met yesterday with Mrs. H. O. Baker to read Browning's "Andrea del Sarto" with Mrs. H. Z. Austin as leader. Besides Mrs. Austin the readers were Mrs. Shoshone, Mrs. Clifton, Mrs. Snow. It was a profitable as well as pleasant afternoon of comparative work. Mrs. W. J. Cleary will be the club's hostess next week.

UNLOOKED FOR SPURT IN HUNTERS' LICENSES

In the Lat Was the First Issued In This County to a Native Son of the Soil.

A batch of forty-seven applications for hunter's licenses was received yesterday by County Clerk Miles, twenty-one of the number alone coming from Selma and neighboring territory. No one pretends to account for this unexpected spurt, except on the theory that there have been people doing hunting without the prerequisite \$1 license. In the batch was a license granted an Indian named Jack Stonewall of Dunlap. This is the first license granted in this county to an aborigine, and labels the theory entertained by many that an Indian has an inherent right to the wild game of the country. This may be true enough regarding an Indian on a reservation but Stonewall has long ago severed his tribal relations and has no better rights than a white man in the matter of slaughtering game.

FIRST FOOTBALL SATURDAY WEEK

Game Arranged Between Fresno and Madera Teams.

High School Huskies Will Clash at Recreation Park—Local Line-Up Strong.

The first football game of the season for the local high school team is scheduled to take place at Recreation park on November 8th with a team representing Madera high school. Manager Warner has also arranged for two following games, one with Tulare high on November 16th and one with Visalia high on December 14th. Besides these games, it is expected that a great many more will be arranged for and the season closed with a game on Christmas between the local and a bunch of huskies from one of the big schools about the bay. The opening game with Madera, next week promises to be a good start for the season, and the boys are hard at work under Coach Warner, who is putting them through their paces at a strenuous rate every day now. The picking of the final eleven to enter this first game will not be done until just before the day. Then it is expected that the bunch of huskies which will line up in their purple and gold jerseys are out making mistakes and defend the name of Fresno HI will be the best ever put out in the history of the sport here.

The ground should be in fine shape for the first game, in case the weather holds good from now on. Fast work is being displayed in practice, making it probable that, in case the footing is anything like secure, speed will be one of the features of the game.

The bunch trying out this year is very encouraging. Twenty-five men or thereabouts are out nightly in their suits, going through the paces under direction of the competent coach.

"The mechanical effect is very good," said Coach Warner yesterday. "Formations are rapid, every man is in the right place at the right time, and the interference is perfect. The back field is very fast, as well as heavy, and a very solid line is being worked out. The men will average probably 165 pounds. They are all in good condition, too."

It was feared at the time that when Cuyler Leonard, the reigning star of the aggregate in last year's let this season for Oakland, that the team would be weak in footing the ball. Captain Collins, however, is developing some fine form in this line, and is now punting the ball out fifty to sixty yards right along every day. This is good work, and compares favorably with the punting done in many colleges and universities.

The only weak point about the team is the fact that the back field is composed of new men, who while they work pretty hard, may not have the same speed and assurance when they get up against the real thing, and get down to the grueling work of a hard-fought game. That this difficulty will not be very formidable, however, is confidently expected.

TURLOCKS SPEAKS FOR RICH OR POOR

A proposition that anybody can handle. I have just placed on the market 1600 acres in 40 acre tracts the finest alfalfa, fruit and vegetable land. You can buy this land on such terms that the land will pay for itself many times before you have to pay any part of the principal, principal to be paid in 4, 5 and 6 years. State and county taxes paid by us, plenty of water. Here is an opportunity to get a home in the wonderful Turlock irrigation district. Come and see to see the opportunity that awaits you. Don't delay, as this property will go fast. Such a chance cannot last.
I. A. HODGES,
Turlock.

FAVORS RACE MEET WITHOUT GAMBLING

Touts a Detriment to County Fairs, Says Authority.

Editor of Breeder and Sportsman Says Fresno Could Have Event Yearly.

That Fresno could make her county fair one of the big annual events on the coast and that the rule against gambling and liquor selling adds instead of injures such a fair—that is the opinion of no less an authority than D. L. Hackett, editor of the Breeder and Sportsman. In a letter to George L. Warlow, prompted by the suggestion of combining the annual fair and the raisin festival, Mr. Hackett says:

Mr. Dear Mr. Warlow:—In the Fresno Republican of yesterday I notice a statement that an effort is being made to hold the Fresno fair and Raisin Festival in conjunction next year, and at a later date than this year. I cannot resist the temptation to say to you that in my opinion such a combination would be a great thing for Fresno county and the entire San Joaquin valley, and I believe the Fresno fair could be made one of the big annual shows on this coast. There are only a few places that can give a big show and Fresno is one of them, and if the harness races were conducted on big lines, there is no question but the largest crowds ever seen in the state could be secured. The later dates appeal to every horseman, as you know they all think they can trot or pace faster in the late fall. Your "no gambling, no liquor" rule will help you, too. I am not a Puritan, but my experience teaches me that the county fair succeeds but where it is made acceptable to the home people and you and I both know that gambling and drinking do not appeal to the parents who have children growing up.

I should like to see Fresno have a great pavilion exhibit, a great live stock show and a harness racing program with all the fastest horses on the coast competing. The most important move towards making such a fair a success will be (in my opinion) getting a good live man for secretary, paying him a salary that will enable him to devote his entire time to it, and let him work for the fair from January 1st to December 31st. Los Angeles, Fresno, San Jose, San Francisco or Oakland, Santa Rosa, the State Fair, Chico and Woodland are places where big fairs and race meetings can be given, and if they could get together and form a circuit, starting say at San Jose or Santa Rosa, and ending at Los Angeles, I believe we would see the people aroused to the importance of annual fairs, and the crowds each day would assure financial success.

I do not write this for publication, but only to suggest to you the possibilities of a circuit of a few high-class fairs in California each year. The suggestion in the Republican by Mr. J. E. Dickinson that "advertising the fair for some fixed date long enough before hand" is just right and to the point.

Don't think I am presumptuous or inclined to "butt in" on your Fresno project, but I am so certain of the success of these fairs if rightly managed and properly advertised that I cannot refrain from saying these few words to you as a friend, who greatly values the real good of your great valley and the harness horse interests at heart. The people up in this section are not thoroughly awake to this matter, so I have hopes of their becoming aroused soon. With best wishes for your health and prosperity and hoping I may meet you next season, I remain,
Yours very truly,
D. L. HACKETT.

money to keep everything ship-shape, but it does cost a goodly sum to put things right that have been allowed a long start on the road to ruin. We can keep your plumbing in order if you give us the opportunity.

BARRETT-HICKS CO.

Something New for the Modern Housewife

Card Index Cooking Recipes

The innumerable advantages of the "Y and E" card index systems have long been recognized in business circles, and at the present time there is scarcely a business that does not make use of them in some form or other.

The Housewife is now invited to participate in Card Index advantages in the form of a choice collection of Mrs. Alice Gitchell Kirk's Cooking Recipes arranged on the Card Index plan. The outfit consists of a handsome cloth-covered box with hinged cover and drop front; 13 index guides with printed titles for classifying the various kinds of recipes, and 125 cards, each containing a neatly printed recipe.

The modern housewife can now dispense with the old cloth covered book, and the flat iron to keep it open with. The danger of soiling the entire lot of recipes while using one is also a thing of the past. One card is now selected from the box and hung upon a nail or hook (there is a hole in each card for that purpose), leaving the remainder intact. This card tells you just what utensils are needed and these can always be procured before beginning to handle the ingredients. There is no danger of forgetting because the list is complete. The card tells in another column what ingredients to provide and these can all be brought to the mixing table without danger of omitting anything. The work of preparing and cooking can be done without removing the card from the wall. There is no danger of soiling a card.

You can copy favorite recipes upon blank cards and file them in the box under their proper head. You can hunt your friend one recipe without parting with any other. Additional sets of recipes are in course of preparation and can be added to the box from time to time as desired.

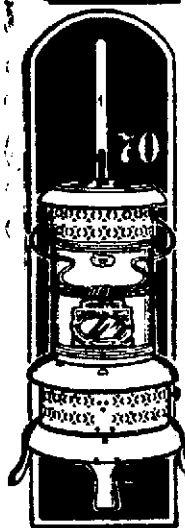

The complete outfit as described above is for sale at the

Fresno Republican Job Printing Department.
Fresno County Agents Yawman & Erbe Mfg Co.

Price \$1.15

JUMPS TO THIRD PLACE WITH GAIN OF 100,000

Mrs. W. D. Smith of Dinuba Receives Most Sensational Day's Vote of the Contest.

What do you think of a contest that surprises one contestant to poll 100,000 votes in one day? This is exactly what happened yesterday when Mrs. W. D. Smith of Dinuba gained 100,000 and some odd votes in a single day. Is there enthusiasm and excitement? Well, just drop around and see the great big big surprise. It gave the whole election department when this announcement was made. Why, 100,000 votes would be a big vote for the whole lot of 190 and more contestants, but when counted to the credit of an individual is nothing short of stupendous and breaks all previous records of any kind in any contest ever held in the San Joaquin valley. That this stroke of good fortune came to a deserving and popular candidate as Mrs. Smith is the source of much pleasure to her hosts of friends, who are so ably supporting their chosen representative. This will no doubt create a huge sensation and be an incentive to others to accomplish the same, or beat it.

It is that plucky spirit that all the Republican contestants have so strongly within them that is making this contest the unprecedented success it has been so far with a bright prospect to the future and a royal finish on December 21st, when Santa Claus will hand out for the Republican the best Christmas presents he could ever invent.

The Republican was very careful in selecting its prizes, giving only the very best of everything. In this thought and consideration on the part of the management appreciated? No stronger or more substantial testimonial of appreciation could be given than the splendid way in which all of the contestants have rallied to the support of the contest. Individuals and communities alike have lent their support, and the country districts given of their best citizens to make the race for trophies of exceptional value a notable one.

As Mrs. Smith's vote stands today she is the candidate to receive the automobile which goes to the outside districts. That is the position she has jumped into ahead of F. M. Schuck, who had held third place for some days. Mr. Schuck will now have to hustle to get back into the contest, who has snatched his place. There are going to be lots of surprises of this kind. Just watch for them. And besides watching do a little work yourself and you be the one to give the rest the surprise, and incidentally give yourself a big chance to win the ranch or an automobile or a trip to Hawaii or any of the other third splendid prizes you have a chance to gain.

Mrs. George Cobb and Mrs. Hoen are still struggling for supremacy in the first district. Cobb is still 20,000 votes ahead, but when one can gain 100,000 votes at one fell swoop she may not be ahead tomorrow. That big gain has been a valuable object lesson to the entire list of contestants, of what one woman can do with well marshaled forces.

There were any number of other creditable gains yesterday, but it seems as though this big 100,000 one just crowded every other one out. But one must get used to these surprises and not let them come as such shocks, for the contest is going to be marked by others just as big and bigger.

One glance down the list would seem to indicate that the contest was several months old instead of just entering upon its fourth week. But when a competition is worth what this one is worth it doesn't take three months to have six figures to the credit of candidates. Everyone that wants a big prize realizes the advantage of getting in the first month. Better hurry before this month passes. You may lose a big prize by delaying.

Mrs. Smith is not one of the oldest candidates. She did not come in until the contest was two weeks old. You have the same chance and unimpaired resources. Look them up today and get busy.

TO HAVE "BUSY MEN'S" CLASS AT Y. M. C. A.
Planning to Accommodate Men Who Cannot Close Business Houses Until 5 O'clock.

A new class is being planned for at the Y. M. C. A. gymnasium, which is to be called the "busy men's" class, and which is designed especially for those men who have not the time to attend the usual business man's class, which runs from 5 to 6 in the evening. The class is expected especially to interest those men who have to keep their places of business open until 5 o'clock and are for that reason kept from attending the present class. Physical Director John Fee was around town yesterday talking the matter over with some of the business men in the stores and similar places, and says that the idea has met with a great deal of approval. The men who are not in strictly professional life, and are tied down with exact hours, say that this sort of class would be just the thing to suit them. The present design is to start the class very soon, and to run it on Mondays and Thursdays, from about six, or a few minutes later to some minutes before seven. The time will not be so long as is given to other classes, but will be simply sufficient to include the strictly physical work, while it may not include so much of the feature of recreation. Mr. Fee believes that the men who feel the need of exercise will be willing and even anxious to join the class for this predominant feature, and think that the idea can and will be made a great success.

LONGLEY IS ACTING AS CITY VETERINARY

It is understood that under an arrangement with the board of health, County Veterinarian O. A. Longley will attend temporarily to the duties of the city veterinarian, an office recently vacated by the removal to Selma of W. E. Reizold, with whom he was in partnership as veterinary surgeons. The appointment of another city vet-

ernage will depend in a large measure upon the action of the trustees in regard to the health board's recommendation to have the duties of the office performed by a federal meat inspector, whose pay shall be charged against the meat providers and slaughter houses. Reizold's resignation is pending before the board of health unacted upon.

Every man deeply respects the individual who is guided and governed by cool judgment and common sense. If one finds his habits of food or drink are producing some hints of disease he should heed nature's warnings and properly adjust his diet to keep the beautiful human machinery in order.

One does not always know where to commence to correct a diet, but one thing to stop is coffee, a most alluring and insidious enemy that "sings one to sleep and knifes him."

The slow but sure effect of caffeine—the active drug in coffee—on the heart, finally produces weak pulse and a deranged nervous system which grow slowly but steadily more pronounced and end in some fixed organic disease unless the cause be removed.

Postum is scientifically made of selected parts of the field grains that yield the natural phosphates which rebuild and give vital energy to body and brain. "There's a Reason."

BUCKET SHOPS ARE RAIDED IN LOS ANGELES

Palaces in Which Gambling Victims Are Fleeced Closed By Prosecuting Officers.

LOS ANGELES, Oct. 28.—Acting under orders from Prosecuting Attorney Fleming, Chief of Police Kern, with a squad of men today raided four bucket shops located in principal office buildings in the city and closed them up. The proprietors were warned not to try to re-open under penalty of being arrested. All of the firms had expensively equipped offices and were doing a large amount of business. It is claimed that evidence had been secured showing that persons who patronized them were being unlawfully deprived of their money by means of false quotations and other devices.

BETTER THAN MEDICINE

Breathe Hyomel's Tonic Healing and Bo Cured of Catarrh.

Nature has a remedy for catarrh, a treatment that is far better than dosing the stomach with medicine.

It is the healing oils and balsams of Hyomel which medicates the air you breathe, reaching the most remote air cells in the nose, throat and lungs, killing all catarrhal germs, and restoring health to the mucous membrane.

In using Hyomel you are treating your catarrhal troubles with the only natural remedy, for it gives a curative air bath to the air passages that has as powerful healing and antiseptic effect as that found in the mountains where the pine forests give off their fragrant and healing balsams.

Breathe the invigorating and healing Hyomel, and see how quickly you will get relief from your catarrhal troubles. The San Joaquin Drug Co. has seen so many cures, even of the worst cases of catarrh, with offensive breath, raising of mucus, frequent sneezing, droppings in the throat and spasmodic coughing, that they feel warranted in selling Hyomel under an absolute guarantee to refund the money if it does not do all that is claimed for it. They take all the risk.

The Road to Success

Is often turned into failure by eyes that sap the nervous strength and deplete the vitality.

If you suspect eyestrain, don't neglect to have your eyes examined and know their condition.

We will do this for you without charge.

If glasses will not benefit we will tell you so. If your case demands glasses we can make them for you. They will be right and the price right, too.

-PRINTERS' INK PAYS-

THREE PLEAS IN DIVORCES

A \$3000 Legacy Ordered Paid In Dr. Baker Estate.

First Step Taken Preparatory to an Appeal in the Pettit-Forsyth Case.

Stephen Meek was divorced from Martha Meek after a sorry state of affairs had been presented in the testimony adduced before Judge Church. The Meeks were married in Tennessee in October, 1905, and there are three children as the result of the union, the youngest about one year of age. The oldest child has been given in adoption to Jacob Bravler of Tulare. The custody of the other children was awarded to the father as the mother was shown to be a person unfit to have their care. The testimony was that she deserted her home and children last month and took up her abode in Barrett's dance hall at Coalinga, the reputation of which was established by the town constable, who was summoned as a witness for that purpose and to testify to acts of "the woman while an inmate of the place."

A divorce was granted by Judge Austin to Sadie James from William S. James on the ground of his conviction of a felony. They were married in April, 1904, and in June, 1905, he was sentenced here to imprisonment for ten years for burglary in breaking into a chicken house. Before that he had suffered two prior convictions.

Sam J. Hines appeared as attorney for the plaintiff and it was his first appearance in court actively engaged in the trial of a case since his recent and alarming illness.

The divorce case of Ola W. Painter against J. R. Painter was, after trial, taken under advisement by Judge Austin on the question whether the acts complained of constitute cruelty such as will warrant separation, or whether as in the case of insanity, sickness or similar misfortune, must be accepted by people in the married state as dispensations of providence not furnishing legal ground for divorce. The testimony was of a medical character.

Estate in Probate.
Elizabeth Ellis, the widow, has been appointed administratrix of the estate of Daniel J. Ellis, the late superintendent of the California Consolidated Winery Company, who was shot and killed on the 10th inst. The estate is valued at \$800 and the widow is put under \$3000 bonds. Roy Thayer, A. Homberger and N. Roysen have been appointed appraisers.

Judge Church authorized Mrs. Alice Cook Baker as executrix of the estate of the late Dr. W. J. Baker, to pay the \$3000 special legacy to Tracie Baker of Alabama, with interest amounting to \$276.50. Immediate payment of three-fourths of the sum, or \$2457.50, has been ordered.

The whole of the estate of Manuel J. Cravilla has been set aside by Judge Church to the widow, Joaquina V. Diaz. It is valued at \$750 and comprises the north-west quarter of section 14-17-17, besides lots in Rose-lawn addition to the city.

The estate of Cyrus J. Smith, valued at \$500, has been set aside to the widow, Christina Smith. It consists of a lot and a half in block 219 in Parkhurst's addition to the city.

Appraisers Named.
Harry Arkollan, I. R. Knight and Th. Anstrop have been appointed appraisers of the estate of the late H. Gazarian, the dentist, and Public Administrator Andrew has been granted letters. Judge Austin named C. R. Puckhaber, City Clerk W. H. Ryan and Bank Cashier W. R. Price to appraise the estate of William Brislaw.

Reopened Horse Case.
A decision was handed down by Judge Church, reopening the case of C. J. Snyder vs. G. C. Owen for additional evidence. The case involves the possession of a race horse which under a disputed lease was entered in races on the eastern and north-western circuits.

Reopened Horse Case.
Stenographer Gearhart has been ordered by Judge Austin to transcribe the testimony in the case of Pettit vs. Forsyth. This means that a motion for a new trial will be made, and would indicate an eventual appeal to the Supreme court.

GALLAGHER ADMITS STEALING UMBRELLA

Man Charged With Attack on Stableman Pleads Guilty to Larceny Charge.

R. Gallagher pleaded guilty to a charge of petty larceny in Justice Graham's court yesterday afternoon. Gallagher was arrested Sunday, with H. M. Pierce, charged with stealing a silk umbrella from Ernest Stray of the Fresno brewery. The pair were also suspected of having been the men who committed an assault upon George Hill, a stableman, the same night in a Chinatown saloon.

Gallagher admitted taking the umbrella and said that he was too drunk at the time to realize the seriousness of his act. Later, he said, he had left the umbrella in a saloon.

In view of the fact that Police Judge Briggs issued a warrant for Gallagher, charging him with battery, Justice Graham suspended sentence until 10 a. m. today.

What's the Use.
Of neglecting that cough when you can cure it with S. B. Lung Tonic, price 50c, at Smith Bros' Drug Store.

SAYS ROAD WILL COME

H. H. Hart Believes Western Pacific Is for City.

Oil Magnate Certain Railroad Favors Fresno—He Is Considering Pipe Line.

That the Western Pacific railroad will come to Fresno, is the firm belief of President H. H. Hart of the Fresno Home Light and Power company, who has extensive interests in the oil fields of Coalinga.

"I don't see how the Western Pacific can avoid Fresno," said Mr. Hart last evening at the Grand Central hotel. "This is too big a city for them to leave off the line, and even if the main line does not come in here, there is no doubt that they will build a branch in order to get a share of the traffic which this city produces now, and what it will produce in the future."

"Everybody knows that they are coming into the valley, and Fresno is one of the great cities of the state and they are going to get a good deal of business here. One of my ideas in putting a pipe line from Coalinga to Fresno, was the possibility of being able to supply them with fuel oil, as they will of course make use of oil."

"In regard to the power plant, I wish to say that everything looks favorable and that I am very well satisfied with the outlook. Two engineers have gone over the ground and their figures agree, and as we have been assured that we will get a franchise, it is now simply a matter of getting the details of cost of construction, site and so on arranged. We have been looking over the territory and are holding a meeting this evening to discuss the project."

"Regarding the proposed pipe line into Fresno, I think that we will put it in, for these reasons: At first I thought the power plant would be located in Coalinga and the power transmitted to this city, but we find that the cost would be about \$2,000 per mile, and as it is approximately 45 miles, I rather think a pipe line would serve our purposes better."

"The pipe line would practically pay for itself and reduce our fuel cost, besides giving us the certainty of a supply. We can not depend on the Southern Pacific or the Santa Fe, considering freight conditions, to serve us. Oil by freight is also quite expensive."

"At present the cost of transporta-

tion is about thirty-eight cents per barrel, the cost at the wells being about thirty-five cents. Besides getting our own fuel we could supply the local market at a much cheaper rate than obtains at present.

"The elevation of the oil fields is such that gravity would carry the oil within practically ten miles of this city, and there is a possibility that '20 gravity' oil will flow without any pumping station. So a pipe line would be the better proposition for us, and incidentally it would benefit the city, for a plentiful supply of oil, available at all times and at a reasonable price, would tend to encourage manufacturing here. By the time we get the franchise everything will be ready to go ahead, and I hope that we will get the franchise just as soon as possible."

METCALFE ARRESTED FOR BRUTALLY BEATING BOY

Body of Youth Shows Livid Stripes Caused By Whip in Father's Hands.

J. W. Metcalfe was arrested yesterday on a warrant charging him with inflicting unnecessary physical suffering upon his son, George Watson, the fifteen-year-old boy found bleeding by the side of Blythe avenue, Sunday morning. He was released on \$100 bail fixed by Justice of the Peace Graham.

Metcalfe came in town yesterday morning and reported to Constable McSwain that his boy was missing. McSwain, who had read of the finding of the boy in the Republican of yesterday, at once telephoned to William Harvey, secretary of the Society for the Prevention of Cruelty to Children, who had cared for the boy, Monday night, and told Metcalfe to come in later and arrange for having description cards printed. Harvey brought the boy to Justice Graham's court and procured a warrant. Before issuing the warrant Justice Graham had the boy strip to the waist and examined his wounds. There were six livid stripes over the boy's right shoulder, half an inch wide, with the skin broken. He also bore three severe scalp wounds and a sharp cut, as if made by a whip lash, across his back.

Metcalfe acknowledged whipping the boy and said it was sometimes necessary to punish him. He will be arraigned Thursday morning.

Metcalfe has a twenty-acre farm seven miles out on Blythe avenue.

The boy went home with his father.

NEW PASTOR COMING FOR CHRISTIAN CHURCH

Rev. J. R. Perkins, the new pastor of the First Christian Church, is expected to arrive here Friday from Paris, Mo., where he had been in charge of the First Christian Church. He is a man of 30 years, with a wife and two children. In anticipation of his coming, the local church has been renovated at a cost of about \$1,000.

S.S.S. PURELY VEGETABLE

A great many blood medicines contain Mercury, Potash, Arsenic or some other strong mineral. These ingredients act unpleasantly and often dangerously on the system by affecting the stomach and upsetting the digestion, and sometimes do great damage by eating out the delicate lining and tissues of the body. No such results ever come from the use of S. S. S. This great medicine enjoys the distinction of being the only guaranteed purely vegetable blood remedy on the market. It is made entirely from the extracts and juices of healing, cleansing roots, herbs and barks of the forests and fields gathered under our own supervision. In the treatment of Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Skin diseases, Blood Poison, and all blood diseases and disorders S. S. S. is a safe and efficient remedy. It removes from the blood all impurities, humors, poisons, and safely as well as surely cures all ills and ailments due to a bad condition of the blood. For more than forty years S. S. S. has been recognized as the best Blood Purifier and the Greatest of all Tonics. We have books on the different blood and skin diseases which we will be glad to send free to all who desire them, and will also furnish any medical advice wanted without charge.

Republican's Grand Voting Contest

SECOND PRIZE---Also Free for All Regardless of Location

A 1908 Model Rambler Touring Car Price \$1,650

This is an absolutely high-grade car, of the most modern and luxurious sort, fully equipped, with top, finest lamps, and everything necessary to a complete outfit. The finest two-cylindered touring car on the market.

This car will be given to the candidate receiving the second highest number of votes.

FIRST PRIZE

FREE FOR ALL IRRESPECTIVE OF LOCATION

A Twenty Acre Farm Worth \$2,000

Twenty acres of the best land in the Fresno Irrigated Farms District. All this land now on the market is selling for \$100 an acre, and none can be had for a cent less. This is the former Bank of California tract, now owned by the Huntington interests of Los Angeles, and is destined to be one of the richest and most attractive farm colonies in California. Kearney Avenue is to be extended clear into the district; a street car line is a certainty in the near future; and the Fresno Country Club is now arranging to make it a center of out-door pastimes and social life.

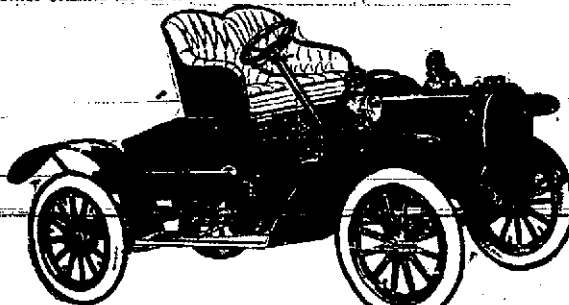

This farm will be an investment, and in a short time a competency for life. It is, beyond comparison, the finest offer ever made by a newspaper on the Pacific Coast, in a circulation contest.

This farm will be given to the candidate, irrespective of location, receiving the highest total number of votes.

THIRD PRIZE

In awarding this prize, the territory is divided into two districts, of which Fresno County is one, and the other consists of Tulare, Kern, Kings, Madera, Merced and Stanislaus Counties.

This car will be given to the person receiving the highest number of votes in the district not winning second prize. Fresno County will be one district; the outside Counties the other.

Newest Model Rambler Runabout Price \$1,150

A high-powered, two-cylinder runabout, of the highest grade, fully equipped. The best general purpose car on the market.

Six Trips to Yosemite

The districts will be the same as for the trips to Hawaii, and one trip to Yosemite will be given to the person receiving the second highest number of votes in each district.

Six Trips to the Hawaiian Islands, All Expenses Paid

For the purposes of this prize, the San Joaquin Valley will be divided into six districts.

District 1—Fresno City. District 2—Fresno County outside city. District 3—Madera County. District 4—Merced and Stanislaus Counties. District 5—Kings County. District 6—Tulare and Kern Counties.

One trip to the Hawaiian Islands will be given to the person receiving the highest number of votes in each of these districts, who does not win one of the capital prizes.

Eighteen Trips to Los Angeles or Santa Cruz

In each of the six districts, three trips to Los Angeles or to Santa Cruz, at the choice of the winner, all expenses paid, will be given to the three candidates coming nearest to the votes of those winning the first and second prizes in these districts.

A good stock of general merchandise at 25 per cent less than invoice; this is in an old established house, having been established over 17 years ago.
We have bargains in orange lands and chicken ranches. Call and ask about them.

WHAT SHALL I DO FOR A HOUSE? BUILD ONE.
This question has been answered by several of our clients last week; they purchased a lot, and will build a house to suit themselves.
Our list of lots is a fine one; you can select a lot from \$100 to \$1000 each; a house does not cost so much more than it used to, when you decide you want it bad enough.
See this list:
Forthamp avenue.
Nelson avenue.
Van Ness avenue.
Belmont avenue.
Calaveras avenue.
Effe street.
8 street.
T street.

In fact, almost any part of town; telephone us; we will call and show you the lots; our prices are very low. Purchase now; building will be brisk this fall.

EWING-MCDANIEL CO., 1118 J St.

DEWITT H. GRAY & CO.
(Members of Fresno Real Estate Board and California State Federation.)
We Would Like to Call
Your Attention to These:
Improved solid 45 acres in the richest portion of the celebrated Carmelita Tract; 30 acres 5-year old Thompsons and 15 acres 4-year old Mission; price reasonable, \$5000 cash, balance on time.

An improved 40 acre one-quarter mile north of the well-known Rogers' vineyard; solid Muscat and wine grapes; price \$2500, 1-3 cash; balance on time. (Raw land is selling at \$125 to \$150 an acre in this locality.)

Drop in and have a talk with us about either of these and incidentally look over our new listings of improved places. We will call and show you the lots; our prices are very low. Purchase now; building will be brisk this fall.
